

THE TIES THAT BIND US TOGETHER

NAVS[®]

Annual Report

1 July 2013 – 30 June 2014

The Ties That Bind Us Together

The strength of our mutual commitment to NA creates the unity that binds us together in spite of all that might divide us. The common welfare of NA depends on the continued growth and well-being of the fellowship in every corner of the world.

The Ties That Bind Us Together

A Note from Your World Board

Again this year, we would like to begin this report by expressing our gratitude for the chance to serve the Narcotics Anonymous Fellowship. This report is our yearly check-in—an opportunity to reflect on what we have accomplished over the past year and how our work impacts the NA Fellowship. It is also a way for us to share with you what's on the horizon.

The theme of the 2014 World Service Conference, “The Ties That Bind Us Together,” reflects that our common welfare, our common goals, and our shared commitment to NA are strong and vital connections between us. We don't always share the same ideas about how to reach those goals, but keeping the Ties That Bind Us in mind helps us to remain focused on our unity. Chapter 3 of *Living Clean: The Journey Continues* reminds us:

When we act together, we are greater than the sum of our parts, smarter than our decisions, and more powerful than we think we are.

It was in this spirit that we approached the 2014 World Service Conference, where one World Board member was elected to a second term and we included a series of sessions to discuss and build consensus on the future of the WSC as a global service body. There were five “Planning Our Future” sessions, each building on the previous session. We began by coming to a common understanding of our issues, and then we did breakout sessions where conference participants identified the needs of NA, considered the reasons we gather as a worldwide service body, and then discussed options for the future of a worldwide service body to serve NA. Finally, we came back together as a full body and considered ways we might attain those ideas for the future.

Once again, we were charged with a great deal of work as a result of WSC actions. This included continuation of the Service System Project and the Traditions Book Project. The focus of the Service System Project for this cycle is to assist and support communities that are adopting aspects of the proposals, develop new tools, and

continue to develop ideas related to the rest of the service system—state/nation/province bodies, zones, and seating. For the Traditions Book Project, ideas and input were gathered during the past cycle, and the focus of this cycle is to continue collecting front-end input on each chapter and to write and distribute chapters for Fellowship review and input.

We broke new ground by creating virtual workgroups to carry out the work of three other projects this cycle. These workgroups are conducting their business primarily in web meetings and using other Internet resources. The Decision Making at the WSC Workgroup is charged with evolving the processes used at the WSC for global decision making. The Planning Our Future Workgroup is tasked with evolving ideas about the future of the WSC that were generated at WSC 2014, and making recommendations for the World Board's consideration. The third virtual workgroup, Delegates Sharing, is the result of a proposal to create a WSC sharing session for delegates to talk amongst themselves

about issues they find important, to exchange experience with each other, and to build unity.

As we report each year, we continue to supply translations and free or subsidized literature to new and struggling NA communities that would not otherwise have access to our printed message. We also continue to make literature available free of charge to incarcerated addicts upon request. Despite the fluctuating financial circumstances of recent years, we remain committed to this service because it is a key to carrying the NA message. We are unlike many other international businesses and nonprofit organizations that can cut services or seek additional financial support from outside sources. We do not have the ability or desire to cut many of the levels of service we provide, nor can we look for support from outside of the Fellowship, especially for this essential mode of supporting individual members and NA communities.

Free and Subsidized Literature 2000–2014 with trend (Cost to NAWS)

Providing literature to communities that need it most is essential to the ongoing health of NA as a whole, and is an integral part of fulfilling our vision. Narcotics Anonymous is a worldwide Fellowship, and the primary purpose of the groups we serve is a mission close to all of our hearts. The need in this area of expense continues to grow, but we have been able to minimize the cost increases of meeting such demand through local and in-house literature production, the opening of a branch in India, efforts to localize printing and distribution, and other steps to contain costs. In the Free and Subsidized Literature graph, the high point in the 2008–2009 fiscal year is an anomaly due to the fact that we gave away all remaining copies of the Fifth Edition Basic Text for use in H&I settings once the Sixth Edition was published. It should be noted, however, that this is an expense that has *almost doubled* since 2000. In this fiscal year that total was \$461,064. Demand has certainly not decreased, and we strive to not say no to anyone.

Everything we do at NA World Services helps us to further the primary purpose of the NA groups, moving us further toward a future in which every addict has an opportunity to experience our message in his or her own language and culture. Gratitude drives the efforts of NA World Services and of each of us as trusted servants on your World Board. This annual report is meant to offer a glimpse into the meaningful work we are able to achieve on behalf of and along with the NA Fellowship. We thank you for your continued support, and we encourage you to read this report as an account of our shared challenges and successes.

World Board Members

Laura B	2014	2018	Albuquerque, New Mexico, USA

* Our guidelines state, "If the World Service Conference chooses to elect more than eight (8) Board members at the same time, the term lengths will be determined by volunteers and then by random drawing at the first World Board meeting following the WSC." Since eleven board members were elected at WSC 2012, three board seats were chosen at random for four-year terms.

When we act together,
we are greater than
the sum of our parts,
smarter than our decisions,
and more powerful
than we think we are.

A Vision for NA Service

All of the efforts of Narcotics Anonymous are inspired by the primary purpose of our groups. Upon this common ground we stand committed.

Our vision is that one day:

- Every addict in the world has the chance to experience our message in his or her own language and culture and find the opportunity for a new way of life;
- Every member, inspired by the gift of recovery, experiences spiritual growth and fulfillment through service;
- NA service bodies worldwide work together in a spirit of unity and cooperation to support the groups in carrying our message of recovery;
- Narcotics Anonymous has universal recognition and respect as a viable program of recovery.

Honesty, trust, and goodwill are the foundation of our service efforts, all of which rely upon the guidance of a loving Higher Power.

Conference Projects

Our strategic planning process is organized around the two-year cycle from one World Service Conference to the next. The time period covered by this report spans two conference cycles (2012–2014 and 2014–2016), so information covers projects that are ending, continuing, and beginning. The projects adopted by the 2012 World Service Conference included the multi-cycle Service System and Traditions Book Projects, the *Introduction to NA Meetings* IP Project, and the continuation of Fellowship Issue Discussion Topics. Some of the information in the updates provided here is excerpted from the 2014 *Conference Agenda Report* and *The NA Way Magazine*.

Service System

The Service System Project grew out of a need to try to address some of the struggles that service bodies throughout NA have reported over the years—too few trusted servants, a poor atmosphere of recovery at service meetings, duplication of efforts, poor communication, and the list goes on. If you are involved in service, chances are you are familiar with many of the issues. Most of us have encountered them in our service experience.

The first task of the project was to offer A Vision for NA Service, which passed unanimously at the 2010 World Service Conference. The 2010–2012 conference cycle saw the release of a number of

reports containing proposals for discussion related to NA service. These, and other materials related to the project, can be found online at www.na.org/servicesystem.

Following the passing of eight resolutions at WSC 2012 that related to the basic ideas underpinning the Service System Proposals, we undertook a field test. Between November 2012 and July 2013 several NA service bodies put into practice some of the ideas related to local services. The three basic elements tested were:

Group Support Forum (GSF): The GSF is a place to discuss group problems and successes away from budgets and motions. It is

Conference Projects on the Web

Service System:

Traditions Book:

www.na.org/traditions

Issue Discussion Topics:

www.na.org/idt

the service equivalent of one addict helping another. Here, newer members can get introductory or basic information about NA, including how the service system works. The exact activities of a GSF will vary from place to place, but the key is that it focuses on the needs of the groups.

Local Service Conference (LSC): The proposals describe the LSC as a quarterly, plan-driven meeting attended by all of the GSRs and/or GSF delegates, along with trusted servants of the LSC and interested members. One of the meetings of the LSC is an annual assembly where all interested members of the NA community gather to set service priorities for the year ahead and to brainstorm ideas for solutions to current local issues. This annual planning assembly ensures that the groups set the general direction of services. The other local service conferences are opportunities for approving projects, communication, oversight, and selection of leaders.

Local Service Board (LSB): The LSB performs the tasks delegated to them by the LSC. These include ensuring the continued delivery of ongoing services such as websites and meeting lists. Members of the LSB may also facilitate the projects created to accomplish the goals and solutions prioritized by the LSC planning assembly. One way to visualize this is that the LSC consists of the architects, while the LSB is made up of the builders and contractors.

In short, the Service System Proposals suggest a separation between these three types of concerns: 1. Group issues and needs are handled at the group support forum. 2. Strategic decisions and general oversight of local services are handled at the local service conference. 3. Day-to-day administration of local services is handled by the local service board.

The experience of the nine communities involved in the field test helped to inform three motions offered in the 2014 *Conference Agenda Report* (CAR). Motions 4, 5, and 6 asked whether the Fellowship agreed in principle to move in the direction of a service system that contains GSFs, LSCs, and LSBs, respectively. Each motion contained a series of essential and recommended characteristics for each service body. Conference action led to an amendment that added the text “to be included in the GTLS as an option along with our current service units” to each motion. The intent of this amendment was to offer the SSP ideas as options for NA communities to consider, along with existing elements of our service system. Each of these motions, along with the Service System Project Plan for 2014–2016, passed by at least a two-thirds majority.

Read more about the GSF, LSC, LSB, the motions related to each of them, and a summary of the field test in the 2014 CAR, online at www.na.org/servicesystem.

Looking Ahead

The Service System Project plan lists a number of tasks for the cycle ahead. We plan to continue developing tools and resources for local implementation of service system ideas, including planning, mentorship, group support, consensus-based decision making, project-based services, etc. We will also continue to collect input about how local NA communities are adapting ideas from the Service System Project to best meet their particular needs, and provide opportunities for this experience to be shared with others. Collecting these experiences and best practices will also help us draft some general ideas to help communities transitioning to a new system.

Traditions Book

Project

The Traditions Book Project

During the course of the 2013–2014 fiscal year, the Traditions Project transitioned from its first two-year cycle to its second. The first two years were devoted to gathering the Fellowship’s ideas about what is needed, desired, and expected from a Traditions book. We were well aware from the 2011 literature survey that a Traditions book was the highest literature priority for the majority of our Fellowship. However, comments on that survey and in various requests we’ve received over the years all indicated that there were widely varying ideas about what such a book would include. Spending some time to gather members’ ideas and expectations helped the World Board develop a clearer sense of how best to approach this project.

At the 2014 World Service Conference, the World Board presented a project plan that outlined the creation of a workgroup for the Traditions Project. With the help of the workgroup, the 2014–2016 conference cycle would be devoted to drafting material, conducting Fellowship review, and ultimately revising and refining the work into an approval form of a Traditions workbook. The workgroup was formed shortly after the 2014 WSC, and they started work right away to begin the difficult task of creating this new piece of recovery literature within a single conference cycle.

At the time of this printing, the Traditions Project was well underway, with the Fellowship reviewing draft chapters and submitting input in response to those drafts. The approval form of the completed text will be published with the 2016 *Conference Agenda Report*, which will be released 150 days prior to the 2016 World Service Conference.

An Introduction to NA Meetings Project

The majority of the text in *An Introduction to NA Meetings* had been available as a service pamphlet for many years. It was originally envisioned as a public relations tool that trusted servants who interact with professionals could distribute to help those professionals prepare addicts for what they would experience when attending their first NA

meetings. In practice, however, this pamphlet became better suited for publication as an actual informational pamphlet because it introduced new members or potential members to NA. The 2012 World Service Conference adopted a project to convert the service pamphlet to an IP to make it more readily accessible to those who may find it most useful. The pamphlet was already available in English, Italian, Netherlands, Norwegian, Portuguese, Russian, and Spanish.

After releasing the pamphlet for review, we received a small amount of feedback from members and service committees in 19 US states and four other countries. Many responded by simply saying we could publish the piece exactly as is; however, we did make a number of revisions based on the input before including the approval draft in the 2014 *Conference Agenda Report*. The IP was approved with unanimous support by the 2014 WSC and was scheduled for production and distribution in the fall of that year.

Virtual Workgroups

After the 2014 WSC, the World Board launched virtual workgroups to fulfill three new projects. Having gained more experience and success using webinars and web meetings, the Board seized the opportunity to pursue these projects with the help of members from around the world—without the usual cost of members traveling to California to participate in workgroup meetings.

WSC Decision Making: The WSC Decision Making Workgroup was formed as a result of Proposal BC which passed unanimously at WSC 2014. The proposal outlined a number of changes to the WSC decision making processes as well as “Ideas to be developed for the future [that] include:

1. A process and mechanism for forwarding, considering, and evolving ideas for discussions.
2. To continue to develop ideas about utilizing CBDM at the WSC. The World Board will be responsible for this but will be asking delegates for ideas and input and may create a virtual workgroup that includes current or recent conference participants to assist in the upcoming cycle.”

The workgroup consists of 14 people: two World Board members, two NAWS staff, the two current WSC cofacilitators, and eight other NA members including several former conference chairs or cofacilitators. The WSC Decision Making Project will be focused on continuing to evolve the processes used by the Fellowship and at the WSC for global decision making. The workgroup will make recommendations to the World Board, and the Board will, in turn, forward the recommendations they support to conference participants.

Planning Our Future: This project grew out of the series of “Planning Our Future” sessions at the last World Service Conference, where participants discussed the needs of NA and what a worldwide body that best meets those needs might look like. One of the Board’s responsibilities this cycle is to frame and forward the discussion that began at the WSC.

The Planning Our Future Workgroup will be a sort of “think tank” for the board—helping to shape ideas and make recommendations to the Board. Part of the workgroup’s charge is to help the Board develop strategies for communication, which is an ongoing challenge—how to report about ideas widely enough that interested members can stay informed, and how to have conversations throughout the Fellowship about ongoing work.

This is another virtual workgroup that consists of 13 people: two Board members, one NAWS staff person, and ten other members.

WSC Seating: A fourth virtual workgroup to address WSC seating was created from some members of the Planning Our Future Workgroup. The Seating Workgroup is composed of three delegates, one World Board member, and one staff member.

Delegates Sharing is a project resulting from Proposal BL, which was strongly supported by the 2014 WSC. The intent is to create a WSC sharing session for delegates to talk among themselves about issues they find important, and to exchange experience with each other in order to foster unity. The workgroup was formed with two World Board members, eight current and former conference participants from around the world (including the proposal-maker as the workgroup point person), and one NAWS staff member. In addition to the specific session identified in the proposal, the workgroup was charged with planning the pre-WSC 2016 Unity Day workshops.

Fellowship Issue Discussions

Issue Discussion Topics (IDTs) offer an opportunity for broad-based discussions on current topics that affect our entire Fellowship. These discussions help make our communications more relevant and form an integral part of working toward achieving some of the objectives from our strategic plan.

We need your local involvement in these discussions so that you can provide us with your ideas and feedback. All four of the IDTs from the 2012–2014 conference cycle relate directly or indirectly to the Service System Project, and

these are also issues that will be reflected in the Traditions book. We often say our diversity is our strength, and these are issues that need to accurately reflect our diversity for both projects.

Although less input on the IDTs was received than in previous cycles, 87 percent of reporting regions said that the IDTs are helpful in their reports to the 2014 WSC. We have provided a short summary of the main ideas received about each IDT below. Comments, input, and ideas are always encouraged and can be sent to worldboard@na.org.

Collaboration

The purpose of this IDT was to generate discussion about how we best collaborate within our areas, regions, and zones, as well as from service body to service body. The principle of collaboration is, quite simply, about working together toward a common goal. Collaboration very often comes quite naturally in a recovery meeting or NA group setting, but can be more challenging to practice in our service efforts.

Input on this IDT covered how collaboration takes place through communicating and participating in groups and service bodies, and by sharing information with other service bodies. The importance of contributing financially to support NA services was also mentioned. Other input described how neighboring service bodies share services such as a helpline, or use technology to enable wider participation in service meetings.

Ideas for improving collaboration included encouraging others and practicing spiritual principles such as positivity, humility, trust, and commitment. It was not surprising that the main factor reported as blocking effective collaboration is behavior opposing these spiritual principles (selfishness, negativity, arrogance,

and fear). The negative effect of not focusing service efforts on our primary purpose was also mentioned. Practical approaches included setting priorities focused on carrying the message to the still-suffering addict, training and mentoring, better use of technology, and organizing learning days and other similar events.

Group Conscience

While it seems clear that it's simply not realistic or practical for every single NA member to be involved in every single NA service decision, it's not always as clear which decisions the NA groups should participate in, and how we can best continue to hold service bodies accountable to NA groups. We received more input on this IDT than any of the others this cycle. If nothing else, the ideas shared remind us that we are a diverse fellowship when it comes to decision making, delegation, and accountability. A variety of practices were reported by groups, but most of those that responded described an informal process for their business meetings based on consensus. Participation seemed to be generally open to anyone in attendance, although many groups reported that voting is open only to home group members.

We also asked what level of involvement groups wanted in decisions outside of their groups, what types of decisions they should consider, and which they should delegate. The most common response was that groups discuss matters that affect them directly, and delegate everything else to their trusted servants. Most groups also stated that they mostly focus on discussing local service issues rather than regional or global matters. Financial decisions were the most commonly mentioned local topics, while recovery literature and the *Conference Agenda Report* were the wider-focused topics mentioned

most often. Some groups delegate decision making to their group service representatives, especially if the issue doesn't directly affect the group or if the group is unable to reach consensus during its discussions. Other groups want to be involved in all levels of service, while some groups don't participate at their area service committee at all, either because they are unable to find a GSR or because they have no interest in participating. Accordingly, the picture of group involvement is as diverse as it can be.

Ideas for keeping service bodies accountable to groups for decisions that the groups weren't directly involved in making included communication and transparency, financial oversight, participation by GSRs and members, and the importance of providing guidelines and training for the trusted servants we elect. Communication, participation, and clear guidelines were also mentioned when we asked how service bodies could exercise the authority delegated to them.

Supporting Our Vision

The discussion of self-support and funding of NA services is one that seems to be a constant, which may simply continue to be the case for us until the culture of contributions gradually shifts in the Fellowship. This IDT developed from the overlap between two of the IDTs from 2010–2012, Self-Support and A Vision for NA Service.

We received only two pieces of input on this IDT, so an in-depth summary isn't possible. What we did receive mentioned the importance of basic services such as helplines and PR when we asked which aspects of NA service helped us find NA, and the value of member participation and the application of spiritual principles in helping others find NA.

Our Third Tradition

This workshop session was added to the list of IDTs around the middle of the 2012–2014 conference cycle, and was developed in response to concerns about the way we welcome—or fail to welcome—addicts into our meetings. Our Third Tradition simply states, “The only requirement for membership is the desire to stop using.” The most common issues as they relate to this topic are that of drug replacement therapy (DRT) and the question of whether addicts participating in this form of treatment qualify for NA membership. Our literature points out quite clearly that “desire is not a measurable commodity,” and many NA members share that they did not know when they first came to NA whether they wanted to be clean. In the spirit of our Third and Fifth Traditions, our role is simply to provide a message, and beyond that, “The choice of membership rests with the individual.” (Basic Text, Tradition Three)

There has been concern raised by some members that this Issue Discussion Topic is motivated by some desire to appease addiction professionals or to alter one of the basic tenets of our program, total abstinence. Our concern is only for those potential members who may never get the opportunity to decide if they can find a new way of life in NA because they do not feel welcomed in NA. We hope this discussion can help make us all more aware of helping new members find the hope that each of us found in the journey to becoming an NA member—and with it, freedom from active addiction.

The input on this IDT initially focused on the personal shortcomings we experience as NA members that impact our groups’ ability to welcome every addict. The IDT profile was revised during the year in an attempt to encourage a broader range of responses that focus on

the situations or contexts that make practicing the principles more challenging.

Looking Forward

The scheduling challenges at WSC 2014 prevented the planned IDT session from taking place on Friday morning, although we did move ahead with carrying over the Third Tradition topic as reported in the 2014 *Conference Report*. The focus was broadened to include members on all types of medication as well as those on drug replacement therapy, those who are demographically different from the majority of addicts within an NA community, and addicts who are still using or who chronically relapse. The IDT was renamed Welcoming All Members and utilizes the IP approved at the 2014 WSC, *An Introduction to NA Meetings*.

Two more IDTs were added following the Board’s July 2014 meeting that focused on some of the main ideas associated with the motions passed at the Conference related to the Service System Project. These are Group Support and Planning, and they will be discussed further in the next *NAWS Annual Report*.

Our vision is that one day:
Every addict in the
world has the chance to
experience our message
in his or her own language
and culture and find
the opportunity for a
new way of life...

Fellowship Development

The work we do at NA World Services is just one part of our Fellowship-wide efforts to further our primary purpose and bring A Vision for NA Service closer to becoming a reality. NA now speaks 77 languages in more than 63,000 weekly meetings in 132 countries. We are grateful for and encouraged by this success—and dedicated to continuing our efforts to fulfill our vision.

Successful fellowship development is a part of almost everything we do at NAWS, and these efforts require many different elements, including:

- Planning and communication
- Providing the NA message in local languages and cultures
- Consistent public relations services
- Face-to-face Fellowship support

As we describe more fully elsewhere in this report, we continue to provide free and subsidized literature, work with local translation committees, and print materials in different countries so that our literature makes it into the hands of NA members where they live. We also maintain and develop relationships with professional and governmental organizations as part of our PR efforts, and interact directly with the Fellowship through one-on-one communication and face-to-face meetings at events like the World Service Conference and other gatherings of members and trusted servants. All of these efforts are shaped by our role as a strategic board, and by the guidance of a Higher Power.

As it is for many other NA service bodies, money is always a challenge. We prioritize and multitask, while also remembering that FD needs to be consistent and ongoing if lasting change in a community is to result. We strive to use our resources effectively by attending more than one event in a single trip when possible and by combining Fellowship events with PR activities or other opportunities.

This section of the annual report describes some of the travel we do to provide direct support to NA communities. These efforts can range from a large-scale workshop focused on a range of service topics in an established community to helping to create the basic building blocks of recovery and service in an emerging NA community.

NAWS Workshops Around the World

Face-to-Face: Workshopping Together

We have embraced the ease of communication through internet vehicles such as webinars, web meetings, and videoconferencing, but little compares to the benefits of personal interaction in a workshop setting. Be it at zonal forum meetings, NA conventions, or NAWS-hosted workshops in NA communities around the world, we are energized and inspired by the dynamic collaboration and challenges of working together to help carry the NA message. Our Vision for NA Service was arguably realized in greater depth this past year as members of the Fellowship gathered to discuss ways and means to improve service delivery and the recovery experience through understanding and practice. We were honored and grateful to be part of a great number of these.

Although it may sound like the same old refrain by now, we continue to grapple with fiscal challenges. It is only through ongoing belt-tightening and conservative fiscal management that we were able to attend events or host as many workshops as we did. We attended a total of 32 face-to-face interactions this fiscal year, with 16 of those being zonal forums. Many of the zonal forums were focused on CAR workshops, while others focused on the Service System Proposals and IDTs. Our practice of com-

binning several events in one trip to minimize travel expenses proved successful again in places like Brazil, Russia, India, and Bangladesh.

Many of our members perceive fellowship development to be assistance with and travel to places outside of North America, but the following log of NAWS' interface shows that much of our FD activity within the last year was within North America. The number of meetings in the US and Canada in 2014 was reported as 28,552 per week—about 45% of the NA meetings worldwide. More than half (about 56%), of our face-to-face interactions were in the US and Canada. More and more we understand fellowship development as an ongoing process, even for NA communities that have been established and providing services for a long time. The following log further reflects NAWS' commitment to supporting fellowship development around the globe in whatever ways we can. These are presented chronologically, beginning in July 2013:

NAWS Workshop Expenses 2004–2014

Zonal Forums & NAWS Workshops

July 2013

- ♦ Russian Zonal Forum – Tumen, Ural, Russia
- ♦ Rocky Mountain Zonal Forum – Casper, Wyoming, USA
- ♦ United Kingdom Convention and UK Regional Service Committee – Birmingham & London, United Kingdom

September 2013

- ♦ European Delegates Meeting and ECCNA – Marbella, Spain
- ♦ Canadian Assembly & Convention – Edmonton, Alberta, Canada
- ♦ Southern California Spanish-Speaking Convention – Orange, California, USA

October 2013

- ♦ Western Service Learning Days – Los Angeles, California, USA

November 2013

- ♦ Latin American Zonal Forum – Santo Domingo, Dominican Republic
- ♦ Brazil Zonal Forum and Brazil National Convention – Buzios, Brazil
- ♦ South African National Regional Convention – Durban, South Africa
- ♦ Linhi Area Convention – Lisbon, Portugal

December 2013

- ♦ Rocky Mountain Zonal Forum – Denver, Colorado, USA
- ♦ Multi-Regional Learning Event – Alfred, Maine, USA

January 2014

- ♦ Plains States Zonal Forum – Rapid City, South Dakota, USA
- ♦ Western States Zonal Forum – Palm Springs, California, USA
- ♦ North East Zonal Forum – Buffalo, New York, USA
- ♦ Midwest Zonal Forum – Kalamazoo, Michigan, USA
- ♦ Autonomy Zonal Forum – Richmond, Virginia, USA
- ♦ Southern Zonal Forum – Houston, Texas, USA
- ♦ New Delhi Area Convention, Dhaka Area Convention, & Bengali LTC Summit – New Delhi, India & Kuakata, Bangladesh
- ♦ Brazil Region – Vitoria/Espirito Santo, Brazil

February 2014

- ♦ South Eastern Zonal Forum – Atlanta, Georgia, USA
- ♦ European Delegates Meeting – Porto, Portugal
- ♦ Asia Pacific Forum and Philippines Convention – Cebu Island, Cebu City, Philippines
- ♦ Mid-Atlantic Regional Learning Conference – Lancaster, Pennsylvania, USA
- ♦ Southern California Regional Assembly Workshop – Covina, California, USA

March 2014

- ♦ Northern New Jersey CAR/CAT Workshop – Northern New Jersey, USA
- ♦ Central California Regional Assembly – Posey, California, USA
- ♦ Norway Regional Service Conference – Oslo, Norway

April 2014

- ♦ Brazil Sul Region – Florianopolis, Brazil

May 2014

- ♦ Chesapeake & Potomac/Freestate Regions PR Learning Day – Laurel, Maryland, USA
- ♦ East Africa Convention – Dar es Salaam, Tanzania

One of the major FD focuses in recent years is Africa. Until quite recently, addicts in Africa had few to no choices for recovery in their villages, towns, and cities. NA meetings would start in countries throughout this vast continent and struggle for some time and often stop meeting. We had had discussions for years about how to better help and support development throughout Africa. At the same time that the First East African Convention was being planned for May 2013, we were contacted by members from South Africa and Kenya asking how they could better support NA in Africa and how NAWS could help. As a result of that communication, NAWS coordinated a gathering of eleven African NA communities immediately before the East African convention. Those communities included South Africa, Kenya, Uganda, Lesotho, Zimbabwe, Namibia, Tanzania, Zanzibar, Ghana, Nigeria, and Ethiopia. This opportunity for emerging, developing, and established NA communities to share their challenges and experience was one of the first steps toward real hope for NA growth and development on this continent.

South Africa has an amazing history of supporting not only its own community, but also emerging NA communities throughout Africa. But it is more than any one region can do alone, and we were honored to play a role in helping this to happen. At this gathering, the communities decided, by consensus, to create the African Zone. At the time of this printing, this zone has met face-to-face for a second time and meets by Skype each month. The difference from then to now is starkly amazing and shows the type of miraculous synergy that can happen in NA. At the first meeting, only two representatives had ever experienced NA outside of their local NA community and country. The delegate from Uganda probably said it best recently:

Access to the world service was just a myth to us; we barely had any literature to run a meeting. We run meetings in a trial-and-error format, hardly knowing what to do. When I attended the first workshop I did not know what was expected of me as a regional delegate, what zonal forum and service structure was. I was just an addict who wanted to stay clean. Right now I can proudly say I was part of history being made when we set the vision and mission for the AZF.

The region that had almost no meetings and literature now has access to literature and stable meetings in two different cities, Kampala and Jinja. Our network extends not only to our neighboring regions but to the entire continent and to the world service. Because of the AZF there is hope for the still-suffering addict in Uganda, and I can foresee the vision becoming a reality.

It was obvious at the second gathering of the African Zone that something deep and significant had changed between the two gatherings. Belonging to something bigger than ourselves and knowing that we are truly “a part of” inspires most members in ways that little else can. The change was evident to all who were present. During that second gathering, a mission and vision statement was created for the zone by the communities present. It states:

Afri-can Zonal Mission, Vision, and Purpose

Our vision is that all addicts in Africa have the opportunity to experience the NA message of recovery in their own language and culture.

Our mission is that the Afri-can Zonal Forum is a service body created by the NA regions in Africa to provide a forum for African regions to communicate and cooperate with one another through:

- Sharing experiences and resources;
- Enhancing and encouraging unity and mutual support so that the regions can nurture and sustain the growth of NA in Africa; and
- Collaborating with other NA service bodies.

Our purpose is:

- To support NA fellowship development projects in the African region
- To encourage and maintain effective communication among member regions
- To enhance connectivity and promote the shared sense of responsibility to those that we serve.

The zone continues to build upon, plans to work together to support and grow NA on the continent. In so many real and vital ways, there is a brightening hope for addicts in more and more parts of the African continent.

We at NAWS have made a commitment to continue to support the efforts of this zone and its member communities. This is an expensive commitment, but one that we have made repeatedly in the past to other zones throughout the world to great effect. Most of those zones not only no longer require financial assistance from NAWS, but actually contribute to NAWS and to ensuring that all NA communities have the same opportunities that they received.

What's Next?

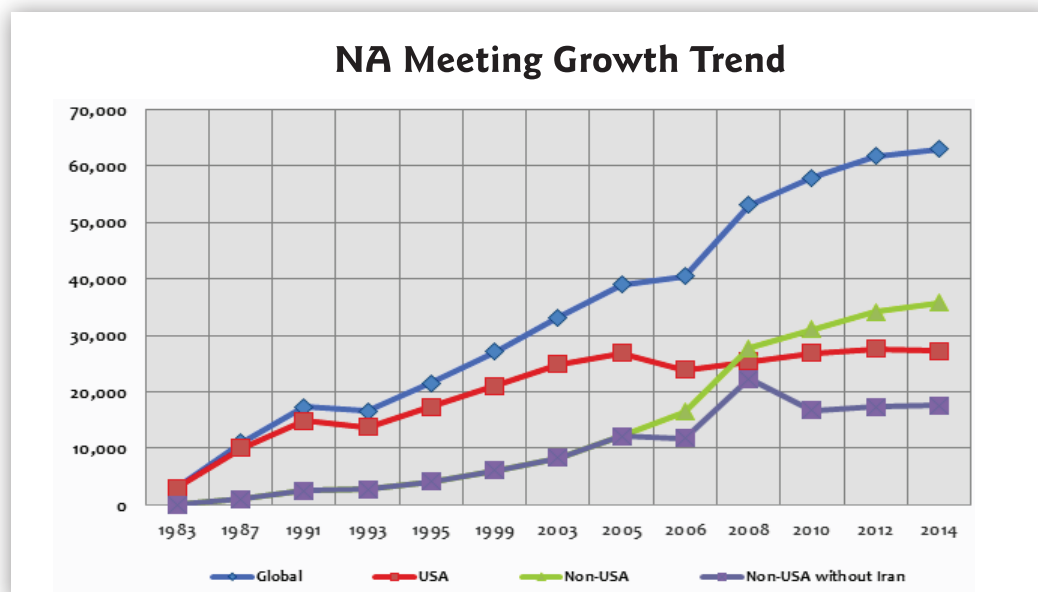

The NAWS Strategic Plan consistently contains a number of objectives that directly affect our ongoing fellowship development efforts. A few of these from the 2014–2016 conference cycle include:

- Transition from a service “structure” to a service “system” that is driven by unity in fulfilling our primary purpose and that is flexible in meeting the diverse service needs and goals of NA communities. (Objective J)
- Revise current literature distribution policy to create a balanced, easily understood, and cost-effective worldwide literature distribution system. (Objective K)
- Provide resources in a timely manner to help groups address practical issues of concern. (Objective P)
- Foster a stronger sense of responsibility among members and groups for supporting development of NA as part of a worldwide Fellowship. (Objective Q)

In our ongoing commitment to provide resources wherever possible and to work toward these objectives, we will continue to support

- the FD efforts of the Russian-speaking NA community by attending their zonal meetings and producing literature within Russia;
- the Afri-can Zonal Forum to help nurture the emerging communities across Africa;
- the FD efforts in the Middle East to support each other outside of a typical zonal setting; and
- service events across the United States and in other countries for both emerging and developed NA communities.

Fellowship development is a constant, Fellowship-wide responsibility. A simple, one-time effort may help to broaden the reach of a well-established NA community or may be the catalyst for growth of a new or emerging NA community. In every case, our goal is to more broadly carry the NA message and to further our progress toward fulfilling our vision.

Public Relations Statement

Why Public Relations Is Important to the NA Member

The Narcotics Anonymous message is “that an addict, any addict, can stop using drugs, lose the desire to use, and find a new way to live.” Our relations with the public enable us to share this message broadly so that those who might benefit from our program of recovery can find us. We perform public relations service to increase the awareness and credibility of the NA program. We share our message openly with the public at large, with prospective members, and with professionals. Maintaining an open, attractive attitude in these efforts helps us to create and improve relationships with those outside the fellowship. Establishing and maintaining a commitment to these relationships can help us to further our primary purpose.

The spiritual principles of our steps, traditions, and concepts guide us in pursuing our public relations aims and our efforts to enhance NA's public image and reputation. These principles apply to our community and service efforts as well as to the personal behavior and attitude of individual NA members.

Informing Professionals and the Public

Narcotics Anonymous is a global, community-based organization with a multilingual and multicultural membership. NA was founded in 1953, and our membership growth was minimal during our initial 20 years as an organization. Since the publication of our Basic Text in 1983, the number of members and meetings has increased dramatically. Today*, NA members hold more than 63,000 meetings weekly in 132 countries. We offer recovery from the effects of addiction through working a twelve-step program, including regular attendance at group meetings. The group atmosphere provides help from peers and offers an ongoing support network for addicts who wish to pursue and maintain a drug-free lifestyle.

Our name, Narcotics Anonymous, is not meant to imply a focus on any particular drug; NA's approach makes no distinction between drugs, including alcohol. Membership is free, and we have no affiliation with any organizations outside of NA including governments, religions, law enforcement groups, or medical and psychiatric associations.

Through all of our service efforts and our cooperation with others seeking to help addicts, we strive to reach a day when every addict in the world has an opportunity to experience our message of recovery in his or her own language and culture.

*As of May 2014.

Public Relations

Effective public relations is a vital aspect of our efforts to realize the part of our Fellowship's vision that "NA is seen as a viable program of recovery." When NA is perceived as an accessible, stable, and effective recovery option, there are more opportunities for addicts seeking recovery to find NA and hear our message.

The work of the NAWS Public Relations Team encompasses all facets of the public relations function. Day-to-day activities entail responding to emails and telephone requests about hospitals and institution issues, drug court questions and concerns, and PR committee requests and inquiries. The team facilitates quarterly web meetings with worldwide H&I, PR, and inmate step-writing committees. The *Reaching Out* Workgroup also meets via web meeting each quarter to assist in creating this newsletter for addicts who are incarcerated or of H&I service.

At NA Fellowship events and learning days such as Western States Learning Days, Florida Service Symposium, Multi-Zonal Service Symposium, zonal forums, conventions, etc., the PR team may participate on behalf of NAWS in workshops focused on H&I- and PR-related topics, community PR presentations, and PR roundtables.

The PR Team also coordinates media relations, serving as a resource for journalists who contact NAWS and for television and movie studios that have NA scenes in episodic or feature movie productions. Additionally, we work with various media outlets in conjunction with the World Convention of NA to provide information about the convention and NA.

The World Convention itself includes a PR strategy that includes NAWS-hosted panels that bring together professionals and NA members. The PR Team coordinates sign-up for institutions to participate on the NA World Unity Day call that takes place as part of the closing meeting on the Sunday of the convention. WCNA is also the event at which NAWS distributes the Membership Survey. The form is distributed at the Friday evening main meeting, and is also made available online. Once the surveys are completed, the PR Team works with a contracted statistician who tabulates survey results to create an updated Membership Survey.

The PR Team contributes to the World Board's strategic planning process by reviewing external trends in medicine, addiction treatment, and criminal justice, including drug courts and government attitudes toward addiction and recovery. This information is forwarded to the Board for inclusion in their planning process. In essence, these external trends help shape NAWS' PR approaches and actions in each conference cycle. Based on the strategic plan, there may be approaches that require creating and/or updating literature, including pieces that may be used in PR service. *In Times of Illness* was one such WSC-approved project plan in which the PR Team worked with the Board workgroup to revise this booklet for Fellowship approval.

National and international professional conferences offer NAWS opportunities to share information and NA literature samples with professionals who help addicts seeking recovery. Participating in professional events also helps us create mutually beneficial relationships with attendees and add to our network of "friends of NA," nonaddict professionals who see the benefit of NA for their clients and patients. Additionally, the PR Team helps to orchestrate professional roundtable discussions to help professionals gain a better understanding of NA and to inform NAWS about their perceptions of NA. Some of these PR efforts of the past year are outlined below.

- American Society of Addiction Medicine's yearly conference is attended by many addiction physicians and professionals. With a trend in the US toward medication to treat addiction, a group of these physicians formed a subset, "Like-Minded Docs," whose aim is to educate their peers about the benefits of twelve-step recovery.

- The National Association of Drug Court Professionals' yearly conference is attended by NAWS to inform and educate judges and drug court professionals about NA.
- The International Association of Addiction Medicine held its 2014 conference in Japan, which helped introduce NA to Vietnamese physicians and to addiction social workers from China and Hong Kong. It also allowed NAWS to strengthen its relationship with the World Health Organization.
- The World Federation of Therapeutic Communities held a conference in Bali, Indonesia, and NAWS had several meetings with the general who oversees the country. His aim was to implement NA recovery meetings in 108 government-run aftercare programs. The Indonesian NA community is now growing and attracting new members.
- The African Zone is a newly emerging zonal forum on the African continent. Uganda and Nigeria are two countries that are trying to grow their NA communities through PR efforts, and NAWS has provided support and assistance to their efforts.

Public relations activity is focused on developing and maintaining mutually beneficial relationships. Through these actions, goals can be realized. Sometimes it takes a while, so regular follow-up and continual action are essential parts of our PR efforts. In the upcoming year, NAWS is looking forward to:

- Meeting with government officials in Hanoi, Vietnam, in November 2015;
- Providing an informational session about the program of NA and recovery at the Addiction Social Worker Conference in China;

- Implementing the Unity Day call at WCNA 36 in Rio de Janeiro, Brazil and supporting the WCNA professional panel, whose guests include Brazilian federal physicians;
- Working with zonal trusted servants in Brazil to create a PR strategy for the zone;
- Attending the International Federation of Non-Governmental Organizations in Malaysia;
- Continuing dialogue with the United States Office of National Drug Control Policy; and
- Interfacing with the European Delegates Meeting Workgroup focused on PR/PI efforts to present information about NA at the European Union.

Every NA member,
inspired by the gift of
recovery, experiences
spiritual growth and
fulfillment through service.

Essential Ongoing Services

Just as fellowship development happens in the course of most of NAWS' efforts, direct services to the Fellowship are provided by every team at NAWS every day. While much of our Conference-related work is cyclical in nature, revolving around the timeline of our biennial World Service Conference, a great deal of our work at NA World Services is steady and ongoing. These services exist to meet some of the essential needs of our Fellowship on a routine basis.

Fellowship Services

Often, the most direct interaction between members around the world and NA World Services happens through the Fellowship Services Team. Whether it's a letter from an inmate, a member starting a new group, someone in need of a Basic Text, or any of the many other inquiries, typically the FS Team is the first point of contact at the WSO. The statistics below illustrate just a few of the services this team provides the Fellowship.

As we moved through the 2014 fiscal year, the big news was that we saw a 39% increase in group registrations and updates over last year. This is a substantial number and can be attributed in part to increased use of the mobile meeting finder app and new meeting technology being used by many NA communities around the world. The mobile app places meeting information directly in the hands of members and allows for updates to be easily sent to us. The new technology allows local service committees to seamlessly

	FY 2012	FY 2013	FY 2014
Group registrations and updates	6024	5020	7001
Inquiries from inmates (each receives an info pack with NA lit)	5410	5119	5806
Free NA books (to inmates and other members)	782	609	981
Free Institutional Group Starter Kits sent to inmates	74	53	49
Free Group Starter Kits sent to members	410	429	454
WSO tours	367	287	343

share data with NAWS. Both of these together have resulted in our database being more accurate than ever. Thanks to all of you for your efforts to update our NA meeting information.

Generally, we receive 100–150 letters each week from inmates via postal mail. This past year we saw our first H&I *email* correspondence from incarcerated addicts. We expect to see this stream of contact increase as we move forward, given the variables around sending and receiving postal mail at many institutions. This email correspondence does not provide us the opportunity to send electronic NA literature and, so far, doesn't allow us to provide links to material at www.na.org, but we will continue to look for ways to use this opportunity to provide incarcerated addicts with information about NA.

Part of our support to addicts in prison who are interested in starting a meeting behind the walls is to provide them with an Institutional Group Starter Kit. Included in the kit are 20 copies each of selected IPs, the *Reaching Out* newsletter, and our booklets *Behind the Walls*, *An Introduction to NA*, and the White Booklet. We also provide the group a copy of the *Institutional Group Guide*, and one each of our books, the Basic Text, *Just for Today*, *It Works: How and Why*, and *Living Clean: The Journey Continues* as reference resources for the group. (Inmates can write to us directly to receive their own copies of these books.) As these materials are depleted, the group can contact us for more. We are grateful for the opportunity to support these institutional NA groups.

Something that is not reflected in our statistics is inquiries from nonaddicts about starting NA meetings. Specifically, we continue to notice increasing numbers of contacts from organizations like churches and treatment centers offering meeting space or inquiring about getting meetings started in their facilities. With meeting space becoming harder and harder to find in many communities, these inquiries can be a great opportunity. We generally direct those queries to local trusted servants for follow-up. Our thanks to all of the trusted servants who are involved with this. The trend seems to indicate the increasing recognition and respect of NA as a viable option for recovery.

As resources at www.na.org continue to increase, many members find answers to their questions without needing to contact us. Already available online are NA handbooks, service pamphlets, bulletins, recovery literature, an area containing locally developed resources, and many other resources meant to provide members with useful information. There are ways for new and existing groups and committees to register or update their information online, or for members to manage their subscriptions to reports and periodicals. The locally developed resources area also gives members the chance to share their tools and solutions with one another. We encourage areas and regions to send their local resources (training and orientation materials, minutes, guidelines, etc.) to Fellowship Services so that they may be made available to other service committees. These can be mailed to us or emailed to fsmail@na.org.

**Sign up for electronic
subscriptions:**

www.na.org/subscribe

Fellowship Publications

We encourage members to subscribe electronically to our publications, which saves printing and distribution costs, allowing us to utilize those funds to support the Fellowship in other ways.

NAWS News is our quarterly publication that provides members with a snapshot of NAWS activity based on discussions and decisions of each World Board meeting. To increase the effectiveness of *NAWS News* as a communication tool we provide a one-page list highlighting the main points in the issue. That single-page overview can be easily distributed among service bodies and interested members. We have also added a NAWS Update email that we send to the addresses in our database on a monthly basis, providing basic information about current NAWS activity to help keep members informed. This has been quite successful.

Reaching Out, published quarterly, is a newsletter of personal recovery experience to help incarcerated addicts connect to the NA program and to enhance H&I efforts. *Reaching Out* has been a resource for NA members since 1986. Single-copy subscriptions are available at no charge to members who will be incarcerated or institutionalized for six months or more, and free multiple-copy subscriptions are provided to each area service committee for their H&I efforts. A paid, multiple-copy subscription is available, as is a free e-subscription. We are grateful that the Latin American Zonal Forum Local Translation Committee translates this newsletter and that the Brazil NA Community also offers translation.

The NA Way Magazine is NA's quarterly journal of recovery and service information, recovery-related entertainment, and current

issues and events. We continue to utilize *The NA Way Magazine* to update the Fellowship on projects and concerns, and to provide information regarding NAWS events and new products and literature. The magazine is published in English, Farsi, French, German, Portuguese, Russian, and Spanish. Since 2010, the Japan Region has supported local translations efforts to publish the magazine in Japanese. We saw significant increases in submissions from NA members this year, receiving 132 submissions from 27 countries (compared to 76 submissions from 12 countries the previous year). We continue to encourage members to opt for e-sub if they are able to do so. The electronic version of the magazine includes enhancements that are not available in the print version like additional articles, live links, and related material.

Reports

A *Guide to World Services in NA* describes the World Service Conference as “the one time and place where all of our World Services come together. ... Every two years, regional delegates, the members of the World Board, and the executive director of the World Service Office meet to discuss questions of significance to the Fellowship of Narcotics Anonymous as a whole.” To accomplish its work, the WSC requires a substantial amount of necessary preparatory materials. To that end, the **Conference Agenda Report** (CAR) is published and distributed (in English) a minimum of 150 days prior to the WSC. Translated versions follow and are sent out a minimum of 120 days prior to the WSC. The CAR presents information and motions on issues that will be discussed at the conference. The CAR helps regional delegates to share this information with members in their NA communities and to prepare for the conference.

The **Conference Approval Track** (CAT) contains a variety of materials to be considered at the upcoming World Service Conference that were not included in the *Conference Agenda Report*. This approval track was created in response to input from members and groups regarding the types of issues they were being asked to review in the CAR. While each region is free to determine how CAT items will be discussed locally, the original idea that created the CAT states, “This frees up our members and groups to devote their attention to holding meetings and carrying the message of recovery, without having to ratify every decision made on their behalf at every level of service.” Items that typically are included in the CAT include the proposed NAWS budget and project plans for the upcoming cycle, seating requests, and recommendations from the World Board, as well as other service- or WSC-related material.

As the Conference draws nearer, the **Conference Report** is published. It includes status reports on conference projects, proposals for new work, a list of nominees for conference positions (World Board, cofacilitators, and Human Resource Panel), details about the Conference schedule, and regional reports submitted by the regional delegates. Other material such as zonal forum reports or articles submitted by delegates may also be included. The Conference Report informs NAWS and NA regions of successes and challenges throughout the Fellowship. These reports are mailed to each voting conference participant, each regional delegate alternate, and the mailing address of each region. Both the *Conference Agenda Report* and the *Conference Report* are also published online at www.na.org/conference.

Translations

Recovery literature is identified in our strategic plan as a key component of our efforts to achieve our vision that “every addict in the world has a chance to experience our message in his or her own language and culture.” Many of the places where NA is growing most quickly or is in the greatest demand also happen to be NA communities for which we have little or no translated literature, so we constantly work to develop and distribute a diverse range of literature for all addicts seeking recovery.

There is much more to creating literature that reflects local language and culture than simply translating words. We must capture the NA message and its subtleties, and this is one of the ways that assisting in these endeavors can be so complex. Some local translation committee challenges are included in this report to give you a glimpse into this important service.

As previously reported, expenses for translators and proofreaders continue to increase due to rising contractor rates. We also have greater expenses simply because we are working on an increasing number of projects in additional languages. However, in-house printing of many translated IPs, booklets, and softcover books now helps us to conserve some funds because we can publish items faster and print small quantities on demand for smaller language communities.

Active Book- Length Projects	New	Revisions/ new editions	2014-15
Basic Text	9	3	12
<i>Sponsorship</i>	1	0	1
<i>It Works</i>	2	1	3
<i>Step Working Guides</i>	4	1	5
<i>JFT</i>	3	1	4
<i>Living Clean</i>	5	0	5
Total	24	6	30

The work of the NAWS Translations Team is divided among particular language groups, but staff efforts also overlap to ensure mutual support for all language groups. In this spirit, despite ongoing financial challenges, we are making progress, catching up, and even providing support again to reenergize some faltering local translations efforts.

News from the Baltics and the Balkans

Estonian

Ten years after the Finns told us about their FD efforts in Tallinn, Estonia, we received some exiting news from Estonia! We were informed by members in Estonia that an LTC had formed, and that they had “finally finished translating” the Basic Text. We all agreed to take a step back to adhere to our guidelines that outline a particular order for approaching translations. So, we have been working with the LTC to finalize both the Glossary and IP #1, which are near completion. We will encourage them to work on some of the IPs in the short term, and then we’ll move on to their Basic Text draft. The LTC chairperson confirmed the existence of at least seven active groups in Estonia at present, and requested a copy of *The NA Step Working Guides* so they can focus on that for their next translation.

Serbian

After little to no contact for a year, communication was renewed in 2014, when the Serbian LTC chairperson sent us an email. She had just returned from the European Delegates Meeting and the European Convention and Conference of NA, and the LTC was excited to move forward with translation of IP #1. The Serbians felt that previous draft translations of their literature had been poorly done, so they started over “from scratch.” They asked if we could print two versions of all Serbian literature, one using the Cyrillic alphabet and the other using the Latin, since both alphabets are used in Serbia. We suggested as an alternative that Serbian literature could be printed in Cyrillic, and if a

group wanted items written in Latin, they could use Croatian literature. (The languages are very similar.) The LTC chairperson gently explained that although they had been using Croatian literature, it is essential for NA in Serbia to have literature in *their* language so everybody can use it without fear of misunderstanding or alienation. The LTC also expressed the Serbians’ great desire to have their “language (at last) listed on na.org as one of the NA languages.” The Glossary has just been finalized, and we are expecting a final version of IP#1 very soon.

Lost in Translation...

This is an abbreviated letter from a non-English member with many years of LTC experience, who gives the following input on how we can make it easier to translate our message. In pieces like personal stories, it can be essential for the cultural context and flavor of the story to use community-specific phrases and words. In translations, we find ourselves using footnotes quite liberally, yet plays on words, slang, and humor may not translate and often get lost in translation.

Responding to your request for input regarding future translations of the book.

Keep track of the origin of the quotation (if it comes from a man or from a woman): In English, “addict,” “member,” etc., as well as all the adjectives, are perfectly suitable both for men or women. But for a translator, except in sentences with he, she, his, her, etc., it’s impossible to know the gender. In Romance languages (Spanish, French, Portuguese, etc.), gender-specific references are a must.

Avoid plays on words or references too specific to the English etymology or structure of the words: The prefix dis- (meaning “opposite of,” “contrary of,” “absence of”) along with the word ease forms

disease. In English the idea is perfectly clear, but it is absolutely untranslatable, because the root of disease in Spanish, for instance, has nothing to do with ease or lack of ease, but with in-firmitas, that is, lack of strength. So, 50 percent of the idea in English gets lost in translation.

Swahili, Zulu, Amharic: Making Headway in Africa

We are excited about new developments carrying our message in emerging language communities in East Africa. Since several IPs have been published in Swahili, members in Kenya, Tanzania, Zanzibar, and Uganda are eager to get the Basic Text in their language. We are presently testing professional translators and the Basic Text project is about to be launched. Translations are done in standard written Swahili that is commonly understood by all Swahili readers, even though there are regional variations in spoken Swahili.

Also exciting is the formation of a Zulu LTC with Zulu members in the Western Cape Area of South Africa, as well as an Amharic LTC with native speakers in Israel and Ethiopia. We are directing our best support to the new language communities and their efforts by way of regular internet video calls. Both LTCs are working on the glossary and IP #1, and we are lining up evaluators and proofreaders.

Just for Today

Lithuanian

*status as of March 2015 (includes English)

My faith in Narcotics Anonymous was refreshed by the hard work and dedication of our work together for the evolution of NA. For me it was a spiritual awakening to realize that in spite of our differences, our common purpose is the same, and is what actually binds us together.

Basic Text, "NA Is a Road Map"

Information Technology

Although IT is a term that means different things to different people, when we write about information technology we mean any technology that can assist our staff to fulfill our mission and help fulfill the NAWS Vision Statement. This can range from services like our various websites to our ever-growing database, and can include physical and virtual servers and equipment of various types. In short, IT involves technology designed to help our efforts to serve the needs of our members and those interested in who we are and what we do as a Fellowship.

One of the factors that helps us determine the technology we embrace is the digital divide that exists within our Fellowship and the public at large. While many of us may wish to take advantage of the most cutting-edge technology, we are mindful that not all of us are at those levels. Additionally, we need to ensure that we get “the most bang for the buck,” and that often means moving a bit more slowly to adopt new technology. This past year has been a busy one for IT and has included many challenges and successes, some of which are listed here.

Challenges

- We are in the midst of a massive upgrade of our accounting software, including our online literature sales area. We hope to launch this upgrade by the end of 2015.
- We have undertaken a campaign to virtualize our server infrastructure to become more efficient and conserve energy.

Successes

- Our website is busy, viewed by over 25,000 visitors per day.
- The web-based meeting search delivers over 200,000 meeting and contact searches per month.
- Our mobile meeting search app has been installed over 90,000 times since its launch in iOS and Android formats.
- We send out over 98,000 emails each night to fulfill JFT subscriptions.

- We have published most of our books in digital versions in English, and we are beginning to work on these versions in some of the other languages.

We are constantly evaluating technological advances and how we can utilize them to do more with less. Unfortunately, not only is technology advancing, but so is the frequency of security concerns that threaten the safety of our ability to meet the needs of those we serve. Security continues to be one of the major tasks we focus on as we strive to keep information secure without hampering productivity.

Looking Ahead

As the demand for information increases month after month, year after year, in its attempts to do more and more our IT staff continues to try to “bend the space-time continuum.” At times we seem to succeed at this; other times, however, we face the usual constraints of time, personnel, and financial resources. Whatever the challenges, we do see the positive results of our continued efforts to support NAWS and help carry the NA message.

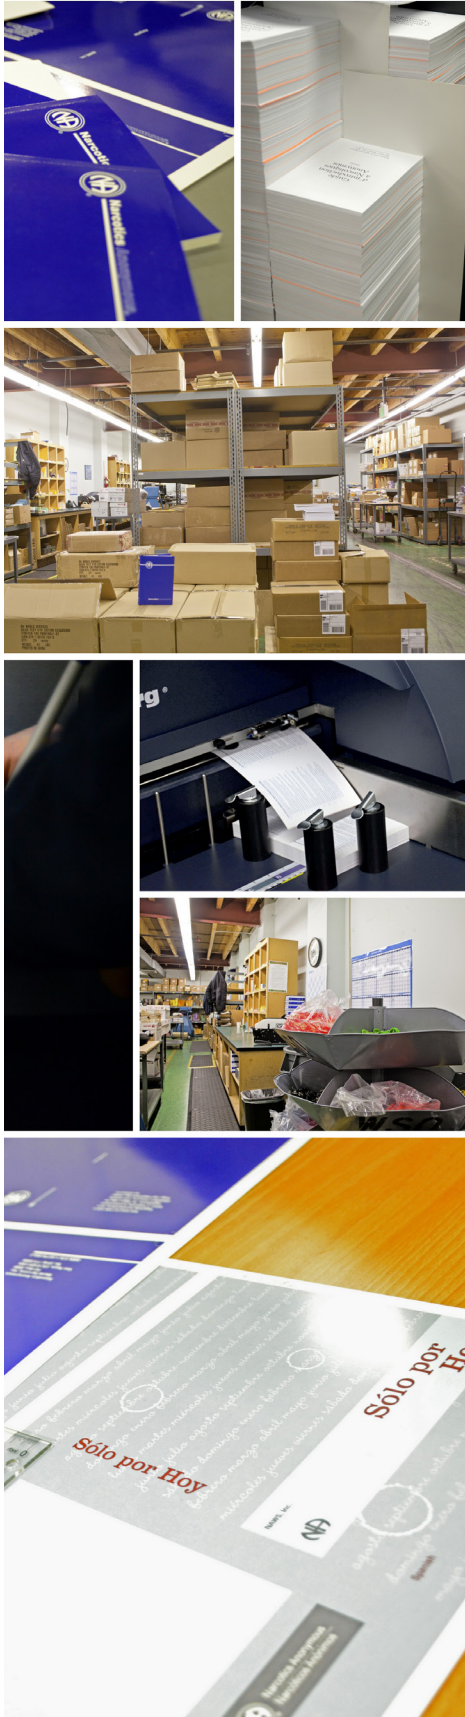

Production and Distribution

Our production and distribution operations are much more complex than simply the numbers of items that move through our warehouse and shipping centers. The numbers that describe this aspect of NAWS' work can't convey the impact of getting literature into the hands of NA members—and our whole team plays a critical role in every step of this process. Through these efforts, we ensure that our literature and products are available to home groups around the world, and to trusted servants conducting H&I panels or stocking literature racks in community clinics. And with that, the NA message makes it into the hands of addicts seeking recovery.

But before NA recovery material leaves our buildings, our production staff works with an extended team of other NAWS staff, translators, editors and proofreaders, designers, printers, electronic literature developers/distributors, and a variety of other vendors. With the addition of equipment to print softcover books in-house, we added yet another aspect of production to handle smaller-quantity orders. And serving our members “where they live” means we also play a key role in designing and producing electronic literature and mobile applications. Our careful and creative efforts are always focused on producing attractive, quality literature and other recovery- and service-oriented products to help our members carry the NA message.

The process of getting those materials into our customers' hands begins with their orders placed by phone, fax, or post, or through online literature sales (our “shopping cart”). Whether an order is processed through our US, European, or Canadian centers, and whether it is placed by a large regional service office, ASC, or an individual member, our customer service and shipping staff do their best to quickly fulfill each order.

In addition to the work we do to create, maintain, and distribute our inventory, this team also produces NAWS periodicals and plays a crucial role in the execution of the World Convention and the World Service Conference, including

the design and production of programs and other printed reports and materials, merchandise, artwork, displays, etc. There's never a dull moment for the Production and Distribution Team, and this past year has been no different.

During this fiscal year, we . . .

- Produced in-house about 20,000 book-length pieces, 82,000 booklets, 24,000 handbooks and reports, and more than 450,000 IPs and small booklets.
- Created more than 900 new literature pieces (excluding revisions).
- Fulfilled more than 22,000 orders, averaging about 1,850 per month. Although we shipped fewer orders in comparison to last year (26,000 orders), we have distributed more literature, as shown in the charts below.

Books

In recent years, we have seen a continuing decline in distribution of many inventory items; however, this year we had a slight increase throughout our products. The charts and graphs in the following pages provide detail about where distribution is falling, remaining steady, or growing.

1983–2014 Book Distribution

This chart shows all-time distribution comparison of our book titles.

As shown in the graph below, the Basic Text remains the “lion’s share” of our book distribution, this year surpassing 9.5 million copies distributed since its initial publication in 1983. Total distribution of all book titles is almost 16.8 million.

Books Distributed 2006–2014

During the 2013 fiscal year, the World Board focused on the sustainability of NA World Services. A 10% across-the-board literature price increase was implemented on 1 January 2014. The price increase for the Basic Text, however, was set at only 5%.

The chart below shows book distribution trends for the past several years. Although this shows a steady decline through 2013, and slight growth in 2014, the trend for services, which we pay for primarily through literature sales, is ever increasing. The growing needs are clearly highlighted throughout this report, but particularly in areas like free and subsidized literature and translations of recovery material. Each of these has at least doubled since 2000.

2006–2014 Book Distribution with Trend

The increase in 2007–2008 is attributable to publication of the new Sixth Edition Basic Text. *Living Clean* is not included in this assessment since it was added in late 2013, but we had distributed more than 208,000 copies of it in English by the end of June 2014. Commemorative editions are also not included on this chart. Commemorative editions create slight changes in these trend lines, but do not change the overall trend.

We create this chart so that we can look at the demand for literature whether it is provided for free or at a subsidized rate, or is sold. The increase in 2014 is overwhelmingly in two titles—the Basic Text and the *Step Working Guides*. Of the additional 59,032 Basic Texts distributed in fiscal 2014 over 2013, the increase was in English paperback, Portuguese (Brazil), and Farsi. There were modest increases in a number of languages including French, Russian, Spanish, Hebrew, Hindi, Norwegian, and Polish. The increase of an additional 13,935 copies of the *Step Working Guides* in 2014 was more evenly distributed among the 15 languages in which it is published. What these numbers seem to imply is that our declining trend is continuing, but in 2014 we reached more new members in a number of places.

2014 Basic Text Distribution by Language

As the chart below shows, we distributed more English books than those in any other language, as usual, followed by Farsi and Brazilian (now called Portuguese (Brazil)). Spanish, Russian, French, Arabic, Netherlands, Swedish, and Norwegian represent over 85% of the more than 19,193 copies of the Basic Text distributed in the other languages.

Basic Text Distribution by Language

Booklets

During this fiscal year, we saw slight increases in all booklets' distribution—about 7% more than last year—with the exception of *Twelve Concepts for NA Service*, as shown below.

2013 & 2014 Booklet Distribution

Informational Pamphlets

The total distribution for all IPs was up by just over 1%, from approximately 4.7 million in fiscal year 2013 to 4.8 million in FY 2014. IPs #7, 16, and 22 are still the most distributed informational pamphlets, as shown in the chart below.

2014 Informational Pamphlets Distribution

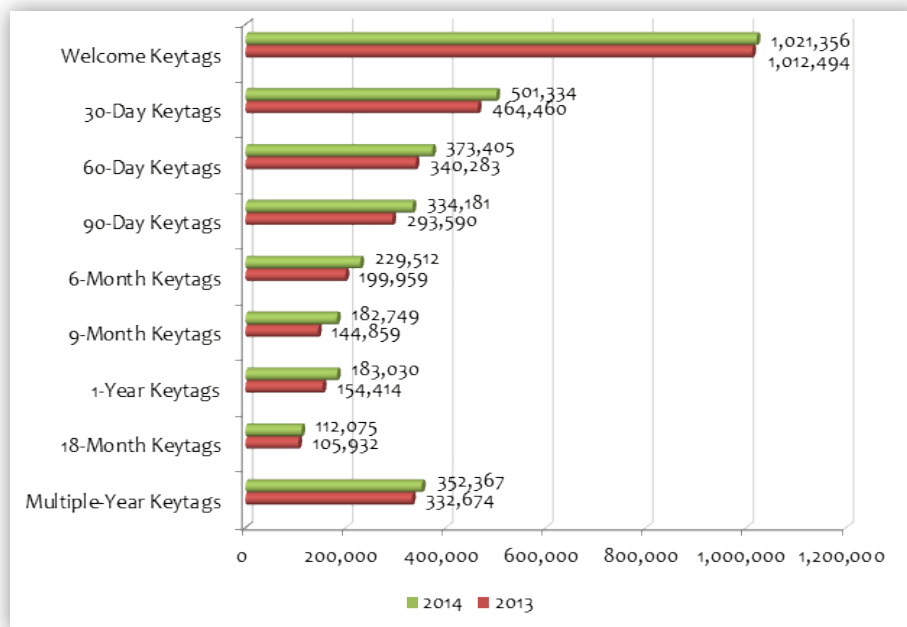

Keytags and Chips

This year, the keytags and chips story changed slightly from last year. Distribution for each increased throughout the denominations, with 7% and 10% increases in keytags and chips, respectively. The quantities shown on the charts are 2013 and 2014 in comparison.

2013 & 2014 Keytag Distribution

2013 & 2014 Chip Distribution

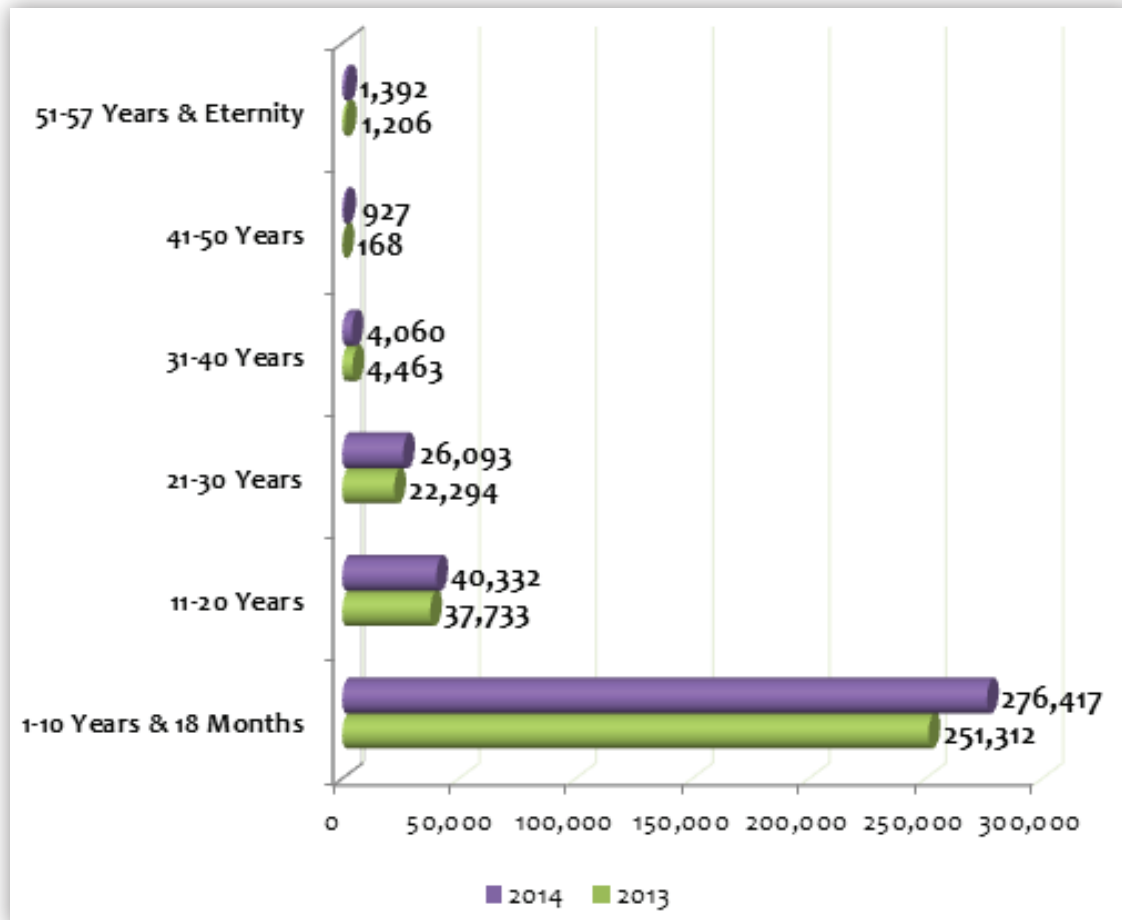

Medallions

Medallions showed the same overall small increase from 2013 as other inventory items. The only considerable increase, 82%, is between 41 and 50 years, which seems to indicate an increase of long-term members.

2013 & 2014 Medallion Distribution

Looking forward, our team will be implementing a major accounting software update, which we expect to improve our customer service, warehouse and distribution, and online sales systems. This, along with our ongoing efforts to remain current with electronic literature and applications, and to continue offering our best products and services, will propel us into the next fiscal year and beyond. With each piece of literature, with each order throughout each year, our goal is to help fulfill our Vision for NA Service and NA's primary purpose.

Our Fellowship's Literature and Trademarks

Since 1993, NA World Services has been charged by the Fellowship of Narcotics Anonymous with the sole responsibility for publishing Fellowship-approved literature and protecting NA copyrights and trademarks. The rights and responsibilities of this agreement are outlined by the *Fellowship Intellectual Property Trust*, and the guidelines found within it are also spelled out in simpler terms in the NA Intellectual Property Bulletins:

- *FIPT Bulletin #1: Internal Use of NA Intellectual Property*
- *FIPT Bulletin #2: Individual NA Member Use of Narcotics Anonymous Trademarks*
- *FIPT Bulletin #4: Reprinting NA Fellowship-Approved Literature*

NA literature and logos belong to the NA Fellowship, and through the *FIPT* the Fellowship has made it a duty of NAWS to protect these trademarks and copyrights from intended or unintended misuse and abuse. It is important to keep in mind that concerns about NA copyrights and trademarks are not about money or control. The goal of the *FIPT* is to strike the proper balance between protecting the Fellowship's property and making sure resources and services are accessible to the Fellowship. In response to an increase in illicit literature production during the past cycle, and in an effort to convey the importance of protecting our Fellowship's intellectual property, we have distributed two Fellowship-wide memos. One is reprinted here, and both can be found at www.na.org/fipt.

We want to thank all of the members, areas, and regions who have helped to support protecting the Fellowship-approved versions we hold in trust. We do not really have new information to add to this discussion, but want to acknowledge the efforts of so many.

Group Conscience & NA Literature

World Board

April 2015

In 1991 the World Service Conference passed two motions—one to reaffirm that the WSO holds ownership of NA’s intellectual property in trust for the Fellowship of NA, and another to reaffirm that the WSO is exclusive publisher and distributor of all NA literature.

At the time, WSO’s intellectual property attorney explained to the Conference:

“This needs to be done for the benefit of those people who do not have the time, energy, or the interest to look back at what really happened and would rather argue that the past consists of what they believe should have happened.”

And here we are again—increasing numbers of our members are illegally copying and distributing NA literature around the world, sowing seeds of confusion and disunity, including places where NA is in early stages. In particular, people are publishing a booklet that contains the Third Edition Revised Basic Text with the Second Edition versions of the Fourth and Ninth Traditions, a booklet that was compiled by a few individuals and has **never been Fellowship-approved**. It is bad enough that we have had this ongoing struggle within NA; now it has become a public problem because these texts are being distributed in institutions.

The roots of this conflict go back more than 30 years. The history of the Basic Text is a story that gets told many ways, with different heroes and villains depending on who is doing the telling.

There are some things, however, that are not open to interpretation:

1. **It goes against group conscience.** The fellowship has decided on these issues repeatedly,
 - ❖ beginning in 1984 when the fellowship voted to return to the First Edition language for the Fourth and Ninth Traditions,
 - ❖ and again in 1988 when the conference rejected the idea of extensive changes to the text beyond fixing the errors in the Fourth Editions,
 - ❖ and again in 1991 when the conference voted against reconsidering which edition of the book should be published,
 - ❖ and again in 1993 when the fellowship approved the *Fellowship Intellectual Property Trust*,
 - ❖ and again as recently as 2004 when a CAR motion was passed authorizing revisions to the Basic Text but specifying no changes be made to chapters one through ten of the text. That 2004 motion resulted in the Sixth Edition Basic Text, which was approved **unanimously** in 2008.
2. **It’s illegal.** The unauthorized reproduction of NA literature is a violation of copyright law. NA groups can copy and distribute NA literature for use within their groups, but that right does not extend outside the group or to individuals and service bodies.

3. It doesn't make sense. On top of everything else, the portions of the Fourth and Ninth Traditions reinserted into the text of the booklets that are being distributed don't reflect most members' understanding of NA service. The Fourth Tradition essay says of service committees, offices, and activities, "**these things are not N.A.**" The Ninth Tradition essay says that service boards or committees "**are not a part of Narcotics Anonymous.**" That doesn't even make sense, does it? Are the funds from your area dance an outside donation? Is your local H&I committee somehow not a part of NA?

We are writing this on behalf of NA World Services, and we consider ourselves a grateful part of NA. NAWS provides support and services to addicts, meetings, and service bodies in 132 countries, speaking 77 languages. We interact with professionals and officials who influence the lives of addicts around the world to make our message more available. Here are just a few figures to give you a sense of our work. In the 2013–2014 fiscal year, we

- ❖ gave away and discounted \$460,000 worth of literature;
- ❖ answered more than 5,800 inmate inquiries with an information packet and NA literature;
- ❖ sent out more than 450 group starter kits and more than 45 institutional group starter kits;
- ❖ held quarterly PR web meetings with 206 area and regional trusted servants from seven countries on four continents, and H&I web meetings with 149 trusted servants from 13 countries on four continents;
- ❖ published 54 new pieces of translated literature, bringing us to 900 translated titles for NA recovery literature; and
- ❖ participated in 32 fellowship development and zonal events.

The money to pay for those services comes mostly from literature sales. In essence, when you buy a Basic Text, you are helping to pay for the literature we give away around the world and all of our other efforts.

Despite that fact, some people will tell you that the Basic Text is too expensive and that is why they are illegally distributing an unapproved version. But again, the fellowship's conscience is clear: The motion to produce a lower-cost Basic Text has been before the conference at least nine times; it's been committed once, ruled out of order twice, and defeated at least six times.

In the end, this isn't about politics or personal views; this is about the spiritual principles of group conscience and NA unity. Please respect the will of the fellowship. Illicit literature has no place in our meetings. For more information about NA's copyrights and world services' responsibility to protect them, see www.na.org/fipt.

NA Literature Timeline

The World Convention of NA

The World Convention of NA is described in *A Guide to World Services in Narcotics Anonymous* (GWSNA) as “a celebration of our recovery, a reflection of our diversity, and a demonstration of our unity.” This clear and simple purpose guides all aspects of the event. WCNA is a unique chance for NA members from around the world, recovering in diverse languages and cultures, to come together and celebrate recovery. In the course of an NA World Convention, we share and experience the joy of living clean through a wide variety of workshops, main meetings, coffee houses and concerts, dances, and fellowshiping.

The World Board is responsible for WCNA, and a workgroup made up of mostly local NA members supports the Board in planning and implementing the event. The WCNA Workgroup coordinates local volunteers and provides input and assistance that are key to the success of the convention. Although the event itself lasts only a few days, the planning process for each World Convention spans many years.

Along with our focus of celebrating our recovery, we also have a base financial premise that the convention either breaks even or generates a profit. The exception to this is when the convention is scheduled to be held outside North America, we initially aim for a break-even event, but completely understand that there is more of a developmental investment in these conventions. That means that we are prepared to experience a net loss on a World Convention held outside of North America when necessary, if it helps us to achieve our fellowship development/PR objectives.

One of the most important lessons we have learned over the history of this event is that it is not prudent for NA World Services to plan a World Convention for those who choose not to pre-register or not to register at all. WCNA 36 was the third World Convention to require a registration badge to gain entrance to the event, including workshops and meetings held in the convention center. Part of our planning strategy is to ensure that

there is minimally enough space at each World Convention for everyone who pre-registers and for newcomers, while trying to provide ample space for a fixed number of on-site registrations.

In addition, the 2012 WSC approved a change from a two-year WCNA rotation cycle to a three-year cycle, alternating each time between North America and sites outside of North America, which may have a broader developmental purpose. This change will be implemented after WCNA 36 in 2015, in Rio de Janeiro, Brazil. WCNA 37 will be held in 2018 in Orlando, Florida, USA. The new rotation schedule was proposed primarily due to the fact that many NA areas and regions also hold conventions and other multi-day events now, so members' limited resources are sometimes used to participate in local events rather than WCNA. With the increasing demand on members' resources and the costs of planning a World Convention, we believe these efforts will help us achieve our developmental and financial commitments.

As this report was being planned and written, WCNA 36 was also being planned and implemented in June 2015 in Rio de Janeiro, Brazil. The World Convention is usually held the first weekend in September, (US Labor Day holiday weekend in the US); however, the World Board may deviate from this schedule when appropriate and/or necessary, which was the case for WCNA 36. Each convention site includes unique characteristics and circumstances. The June dates for WCNA 36 were chosen primarily because this is Rio's off season, which means lower prices and fewer crowds—both advantages for our members.

WCNA 36 – Rio de Janeiro, Brazil

Planning a convention outside of North America offers some unique benefits and challenges. Besides the geographic distance, there are logistical differences like planning in a different culture, language, financial and legal policies, and currency conversion. For example, some payments to WCNA by attendees will not credit for 30 to 90 days after the charge. At WCNA 36 we provided information in English and Portuguese and we offered pre-registration in US dollars and Brazilian reals. We also discovered that in Rio, hotel room blocks are geared toward a single payer, a system that just doesn't work for us. We surrendered to this reality and for the first time in our WCNA history, we did not offer hotel rooms through a reserved block. This convention was also planned to be as bilingual as possible given all financial and human considerations.

We are estimating that there were 3,000 – 3,500 people in attendance. In addition to a bilingual program of English and Portuguese, we were also able to translate the main meetings onsite into French, Russian, and Spanish. Additionally, this was the first time that the main meetings were streamed live via the Internet. Preliminary data shows that throughout the convention approximately 15,529 people connected to the English audio stream and approximately 5,200 people connected to the Portuguese stream. These numbers do raise the possibility that some portion of the local membership may have elected to not actually go to the convention since this online opportunity to hear the main meetings was available. This will have to be examined further.

One of the benefits we always experience with a World Convention is the impact the event has on the hosting and surrounding NA communities. The opportunities for public relations are unique, allowing us to communicate broadly with local professionals who provide services for addicts seeking recovery. In addition to the panel discussions with professionals that we host at the convention itself, we also respond to opportunities to provide information to interested media and others who inquire about WCNA and Narcotics Anonymous. All of these efforts, plus the enthusiasm that ripples through the local NA community, combine to result in a renewal of spirit and energy that helps us better carry the message to addicts seeking recovery.

In cooperation with the Brazilian Zone, we were able to accomplish all of the intended PR objectives:

- ♦ Create broader exposure for Narcotics Anonymous on a national level,
- ♦ Establish contacts with media who were interested in telling the positive story of NA in Brazil,
- ♦ Establish important contacts within the treatment and corrections government to provide information and develop cooperative relationships.

We had a unique experience in Rio and have to thank the many, many volunteers who helped to make this happen. We will be providing more details as we are able to reconcile the details of this event in upcoming issues of *NAWS News* and in the 2015 *NAWS Annual Report*.

We are also excitedly looking ahead to gathering in Orlando in 2018.

The mission of the
World Service Office is
to provide services and
support that facilitate the
continuation and growth
of Narcotics Anonymous
worldwide...

Staff and Offices

Between July 2013 and March 2015, a total of 66 full- and part-time staff members were employed by NA World Services in five service and/or distribution centers around the world. Of those 66 employees, 53 worked in the Chatsworth office.

NAWS – Chatsworth

19737 Nordhoff Place

Chatsworth, California 91311 USA

Tel: 818.773.9999

Fax: 818.700.0700

Website: www.na.org

Our main service center in Chatsworth, California, continues to serve as an important resource for our worldwide fellowship in a variety of ways. This branch is home to the executive and administrative staff responsible for providing support to the World Board and the World Service Conference. An integral part of that support is working closely with the Board and workgroups to carry out conference projects and implement the World Convention. Other ongoing responsibilities coordinated from this location include

the production and distribution of NA literature and service materials, and the maintenance of NA's website, www.na.org. This location also serves as a centralized resource for members, groups, and service committees around the world by responding to phone calls, emails, and letters on a day-to-day basis.

NAWS – Europe

B-1050 Brussels, Belgium

Tel: +32.2.646.6012

Fax: +32.2.649.9239

Branch Office Manager

Paul Decock (paul@na.org)

Assistant:

Fred Renaux (fred@na.org)

The continent of Europe is a mosaic of cultures and languages, and that is why our challenge is still to be able to stock enough literature in the small warehouse at our European branch office to meet the needs of all communities. We currently maintain a stock of literature at this branch in 39 different languages. The bulk of the inventory is in European languages, but we also stock Farsi, Hindi, Indonesian, and Portuguese (Brazil) for Euro-pean groups.

This branch office continues to distribute a substantial amount of free literature to emerging NA communities. Many of these communities are located in Central and Eastern Europe: Russia, Estonia, Lithuania, Latvia, Poland, Czech Republic, Ukraine, Bulgaria, Slovenia, Croatia, and Bosnia. In addition, this branch also ships free literature to places in Turkey, the Middle East, and North and East Africa.

Our European branch also serves as a point of contact for NA in Europe. While some members directly contact NA World Services in Southern California, some others find it easier to reach this branch office, which is able to provide basic support and information to groups, members, or institutions seeking information about NA.

In this last year, more and more communities have chosen to process donations to NAWS through our European account at WSO-Europe. We thank you for responding to our call for help in this challenging time. Your contributions make it possible for us to

maintain a service center and the same level of service to the European communities.

Finally, this branch office provides support to the zonal forum for the continent, the European Delegates Meeting. The EDM legal entity was established in Belgium, and NAWS staff provided assistance to them in opening and managing their bank account in Brussels.

NAWS – Canada

Mississauga, Ontario

Tel: 905.507.0100

Fax: 905.507.0101

Branch Office Supervisor

Jacquie Sullivan (jacquie@na.org)

Assistants:

Paul Sullivan

Not far from Toronto, Ontario, our Canadian literature storage and shipping facility in Mississauga continues to serve the needs of the Canadian NA communities. The increase in recent years of sales to the local NA groups is helping to stabilize its running expenses. The main function of the facility is accommodating the literature needs in Canada. The employees at this distribution center work hard to ship all orders that are processed. We're very thankful for and proud of all their work, which makes it possible to get our message to those who need it in Canada.

NAWS – Iran

PO Box 14665-3115

Tehran, Iran

Branch Office Manager

Siamak Khajeian (siamak@na.org)

Other employees:

Amir Bondar, Farhad Fallah,

Mehrdad Naseri, Hossein Nematzadeh,

Farhad Pourshehi (farhad@na.org),

Reza Tavakoli, Payam Yazdani

Maintaining a literature production and distribution center in the capital of Iran has been the most effective solution for serving the needs of the most rapidly growing NA community in the world. In addition to the production and distribution of NA literature and merchandise, this branch also translates and distributes *The NA Way Magazine* in Farsi. The manager of this center coordinated the establishment of the facility. He has the assistance of seven employees, with whom he continues to work very hard to produce and distribute literature to the Iranian NA community. This year we moved offices and obtained a separate warehouse to meet our growing needs. The staff's enthusiasm and dedication contribute to the ongoing success of this venture and the strength of NA in Iran.

As we have mentioned before, the phenomenon of NA in Iran cannot easily be explained in any report. It seems to be a combination of a number of factors: culture, need, little focus on drug replacement therapies by the government and professionals, a spirit of service, an effective chain of communications that reaches the individual member, a service structure that was designed by the region to serve the common welfare, and relentless public relations. With over 18,000 meetings as of WSC 2014 (up from roughly 15,000 meetings in October 2010), they continue to do more public relations than any community we are

aware of. While we do not believe that other NA communities can duplicate what has happened in Iran, there is much we can learn from them about service efforts and PR. The distribution charts in this report are a clear illustration of just how many addicts in Iran have the opportunity to hear the NA message.

NAWS – India

Bangalore, India

Part-Time Shipper:

Pramila Dias

As freight and material prices have risen over the last decade, we've had to ponder ways to decrease the freight overhead and consider local production options. In the case of India specifically, and South Asia in general, literature distribution has been especially difficult because these communities are so far away from our other distribution centers. In 2008, we opened a distribution center in Bangalore, India, to accommodate the NA communities there and throughout Asia, as much as is fiscally feasible. These communities have benefited greatly from being able to receive literature much sooner and in greater quantities than before, and the costs to NAWS have been substantially reduced. Coupled with local production of items such as books, IPs, and key-tags, NAWS-India plays a significant role in furthering our vision.

Financial Reports

This section of the annual report is broken into three parts: consolidated statement of financial position and consolidated statement of activities, independent auditors' report, and Fellowship contributions report.

The **consolidated statement of financial position (SoFP)** and **consolidated statement of activities (SoA)**, also known as the "balance sheet" and "income statement," respectively, provide a report on the financial activity of NA World Services during the fiscal year. The SoFP, or balance sheet, gives a simple breakdown of the current assets and liabilities of NAWS in financial terms. The SoA, or income statement, provides a breakdown of the total income and expense for all branches of NAWS compared to the budget adopted at WSC 2012 and broken down in the categories shown in the chart. Under each set of expenses, we include costs for accounting, personnel, overhead, and technology. These are expenses that cannot be attributed directly to any of the specific areas of activity. They are budgeted and allocated (distributed) according to a calculated fixed percentage across the four activity areas. The allocated percentage is based on three factors: the number of personnel devoted to the activity, the approximate number of labor hours, and the amount of physical office space required by the activity and estimated for the two-year budget cycle.

Percent of Expense for 2013-2014

The independent auditors' report is provided by an outside firm that conducts a professional audit of NAWS' financial reports and practices. NAWS contracts with an independent accounting firm to audit its financial statements each fiscal year. In addition, the CPA firm is engaged to perform certain tests of transactions, internal controls, and internal financial practices. In order to comply with legal requirements, we have an Audit Committee. Consistent with

normal accounting practice, this workgroup is independent of specific NAWS management control and operates on behalf of the board.

The references to specific line items and expenses are formatted differently in the NAWS income statement and the independent auditors' report. But they do show, within a few dollars, the same income and expense, serving as the outside or impartial verification of our financial reporting for this fiscal year.

Finally, the **regional contributions report** is a report on the contributions received by NA World Services throughout the fiscal year from the NA Fellowship, broken down by region and/or country.

INDEPENDENT AUDITORS' REPORT

To the World Board of
Narcotics Anonymous World Services, Inc.

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of Narcotics Anonymous World Services, Inc. (a nonprofit organization), which comprise the consolidated statements of financial position as of June 30, 2014, 2013 and 2012, and the related consolidated statements of activities, functional expenses and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We did not audit the financial statements of Payam Omega (the official business name of the Iran service office) which statements reflect total assets of \$679,842, \$556,654 and \$580,651 as of June 30, 2014, 2013 and 2012, respectively, and total revenues of \$237,842, \$289,764 and \$193,820, respectively, for the years then ended. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for Payam Omega, is based solely on the report of the other auditors. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

To the World Board of
Narcotics Anonymous World Services, Inc.

We believe that the audit evidence obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

The opinion of the other auditors on the June 30, 2012 financial statements of Payam Omega was qualified because they were not able to obtain information to support inventory in the amount of \$317,021, as of June 30, 2012.

In our opinion, based on our audits and the report of the other auditors, except for the effects of such adjustments, if any, as might have been determined to be necessary had the other auditors been able to satisfy themselves as to Payam Omega's inventory as of June 30, 2012, the consolidated financial statements referred to in the first paragraph present fairly, in all material respects, the financial position of Narcotics Anonymous World Services, Inc. as of June 30, 2014, 2013 and 2012 and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Consolidated Statement of Cash Flows
Exhibit D**

	Year Ended		
	30-Jun-14	30-Jun-13	30-Jun-12
Cash flows from operating activities:			
Change in net assets	\$671,889	\$588,919	\$1,460
Adjustment to reconcile change in net assets to net cash provided (used) by operating activities:			
Depreciation and amortization	223,002	188,301	150,334
Loss on disposal of fixed assets	-	-	4,529
(Increase) decrease in assets:			
Accounts receivable	112,342	187,086	219,664
Publication inventory	(14,231)	25,766	187,712
Prepaid expenses	49,780	13,877	45,139
Deposits	579,926	(618,265)	427,989
Increase (decrease) in liabilities:			
Accounts payable	(103,867)	128,592	(506,651)
Accrued salaries and withholdings payable	33,394	3,224	(39,708)
Deferred convention revenue	(1,364,469)	1,364,469	(1,200,624)
Net cash provided (used) by operating activities	<u>187,766</u>	<u>1,881,969</u>	<u>(710,156)</u>
Cash flows from investing activities:			
Purchases of investments	(445,158)	(443,190)	(441,095)
Proceeds from the sale of investments	445,216	443,608	442,154
Purchases of furniture and equipment	(150,536)	(120,089)	(71,007)
Purchases of leasehold improvements	(34,757)	(22,618)	(22,130)
Payments to secure copyrights and trademarks and purchase software	<u>(302,979)</u>	<u>(91,111)</u>	<u>(100,313)</u>
Net cash provided (used) by investing activities	<u>(488,214)</u>	<u>(233,400)</u>	<u>(192,391)</u>
Net increase (decrease) in cash and cash equivalents	(300,448)	1,648,569	(902,547)
Cash and cash equivalents:			
Beginning of year	<u>3,393,976</u>	<u>1,745,407</u>	<u>2,647,954</u>
End of year	<u><u>\$3,093,528</u></u>	<u><u>\$3,393,976</u></u>	<u><u>\$1,745,407</u></u>

Supplemental disclosures of cash flow information:

Interest paid during the years ended 30 June 2014, 2013, and 2012 amounted to \$0, \$0, and \$3,211, respectively.

See accompanying notes to consolidated financial statements.

Notes to Consolidated Financial Statement

Independent Auditors' Report Years Ended June 2014, 2013, and 2012

NOTE 1 – ORGANIZATION AND NATURE OF ACTIVITIES

Narcotics Anonymous World Services, Inc. (NAWS) was incorporated on 25 January 25 1977 and is headquartered in Chatsworth, California. In addition, NAWS operates literature distribution facilities in India, Toronto, Canada and offices in Brussels, Belgium, and Iran. NAWS' Iranian service office is known as Payam Omega. NAWS is a not-for-profit organization that provides communications and information for the Fellowship of Narcotics Anonymous (NA). NAWS achieves its purpose by maintaining correspondence with NA groups and service committees, by printing and distributing World Services Conference (WSC) approved literature, and by maintaining the archives and files of NA.

In 1993, NA established the Fellowship Intellectual Property Trust (the Trust). The Trust was established for the purpose of holding and administering all recovery material and other intellectual properties of NA. The Trust is included in the consolidated financial statements of NAWS as a result of common control.

NAWS is exempt from income tax under Section 501(c)(3) of the Internal Revenue Code and under the California Revenue and Taxation Code. The Trust is also exempt under the applicable Internal Revenue Code and comparable California Revenue and Taxation Code. In addition, the Internal Revenue Service has determined that NAWS and the Trust are not private foundations within the meaning of Section 509(a) of the Internal Revenue Code. Therefore, no provision for federal and state income taxes was made for either NAWS or the Trust.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Consolidation Policy and Basis of Accounting

The accompanying consolidated financial statements include the accounts of NAWS and the Trust. Significant intercompany balances and transactions are eliminated in consolidation. The consolidated financial statements are prepared on the accrual basis of accounting.

B. Financial Statement Presentation

Under US Generally Accepted Accounting Principles (GAAP) not-for-profit organizations are required to report information regarding financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets and permanently restricted net assets. As of 30 June 2014, 2013, and 2012, NAWS held no temporarily or permanently restricted net assets.

C. Cash and Cash Equivalents

NAWS considers all funds held in checking, savings and money market accounts to be cash and cash equivalents. Short-term investments with initial maturities of 90 days or less are also considered cash equivalent.

D. Investments

NAWS investments are reported at fair value. Investments include certificates of deposit, equities and government securities. See Note 5.

E. Publication Inventory

Publications and other items held for resale are included in inventory and are carried at the lower of cost or market, with cost determined by the first-in, first-out method.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Property and Equipment

Leasehold improvements and furniture and equipment are stated at cost. Major additions are capitalized while replacements, maintenance and repairs that do not improve or extend the useful life of the asset are expensed. Depreciation and amortization are computed using the straight-line method over the estimated useful lives of the related assets, which are as follows:

Leasehold improvements	5 years
Furniture and equipment	5 - 10 years

Depreciation and amortization expense for the years ended 30 June 2014, 2013, and 2012 amounted to \$114,736, \$106,103 and \$67,633, respectively.

G. Trademarks and Copyrights

The cost of acquiring and defending copyrights and trademarks is capitalized and is amortized over the approximate economic life of the copyright or trademark, which is estimated to be ten years. The cost of computer software is also capitalized and amortized over a period of seven years. Amortization expense for the years ended 30 June 2014, 2013, and 2012 amounted to \$108,266, \$82,198 and \$82,701, respectively.

H. Accounts Receivable and Allowance for Doubtful Accounts

Accounts receivable are reported net of an allowance for doubtful accounts. The allowance is based on management's estimate of the amount of receivables that will actually be collected. Management estimates uncollectible accounts based on the age of the receivable and other factors.

I. Translation of Foreign Financial Statements

Financial operations in Canada, Europe and the Middle East are translated throughout the year to United States dollars. Gains or losses resulting from translating foreign currency financial statements are recorded in the consolidated statements of activities.

J. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

K. Functional Allocation of Expenses

Based on estimates developed by management, 2014, 2013, and 2012 program service costs totaled \$9,147,266, \$6,131,422 and \$7,952,546, management and general costs totaled \$1,016,364, \$681,269 and \$883,617, respectively.

L. Tax Status

NAWS has adopted guidance on accounting for uncertainty in income taxes issued by the Financial Accounting Standards Board. Management believes that NAWS has taken no uncertain tax positions that require adjustment to the financial statements to comply with the provisions of this guidance. Timely filed information returns for years subsequent to the year ended 30 June 2010 (2009 for state returns) are subject to examination by authorities.

M. Reclassifications

Certain amounts in the FYE 30 June 2012 and 2013 financial statements have been reclassified to conform to the 2014 presentation.

NOTE 3 – RETIREMENT PLAN

NAWS maintains a qualified defined contribution retirement plan, which covers all employees. Under the terms of the plan, employees may elect to contribute pre-tax earnings up to the maximum allowable amount. NAWS matches deferrals of up to 5% of compensation based on the employee's number of years of service. NAWS contributions totaled \$76,326, \$70,988 and \$66,984 for the years ended 30 June 2014, 2013, and 2012, respectively.

NOTE 4 – OPERATING AND CAPITAL LEASES

NAWS has entered into various capital lease agreements for the use of office equipment and facilities. The following is a schedule of future minimum rental payments required under operating leases that have initial or remaining non-cancelable lease terms in excess of one year as of 30 June 2014:

Year ending 30 June	
2015	\$911,214
2016	598,450
2017	391,840
2018	216,912
2019	164,415
Thereafter	<u>3,462</u>
Total minimum payments required	<u>\$2,286,293</u>

Total payments made under the leases during the years ended 30 June 2014, 2013, and 2012 were \$998,575, \$929,671 and \$720,697, respectively.

NOTE 5 - INVESTMENTS

GAAP establishes a fair value hierarchy that prioritizes valuation inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market:

Level 1 – Inputs are quoted prices in an active market.

Level 2 – Inputs are quoted prices for similar instruments and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data.

Level 3 – Inputs are generally unobservable and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability.

The following tables summarize investments based on the inputs used to value them:

The following tables reconcile the beginning and ending fair value of the Plan's Level 3 investments:

	<u>30 June 2014</u>			
	Level 1	Level 2	Level 3	Total
Certificates of Deposit	\$ –	\$ –	\$373,516	\$373,516
US Government and Government Agency obligations	–	3,892	–	3,892
Equities	7,130	–	–	7,130
	<u>\$ 7,130</u>	<u>\$ 3,892</u>	<u>\$ 373,516</u>	<u>\$ 384,538</u>

	<u>30 June 2013</u>			
	Level 1	Level 2	Level 3	Total
Certificates of Deposit	\$ –	\$ –	\$373,000	\$373,000
US Government and Government Agency obligations	–	5,756	–	5,756
Equities	5,840	–	–	5,850
	<u>\$ 5,850</u>	<u>\$ 5,756</u>	<u>\$ 373,000</u>	<u>\$ 384,596</u>

	<u>30 June 2012</u>			
	Level 1	Level 2	Level 3	Total
Certificates of Deposit	\$ –	\$ –	\$372,390	\$372,390
US Government and Government Agency obligations	–	7,863	–	7,863
Equities	4,761	–	–	4,761
	<u>\$ 4,761</u>	<u>\$ 7,863</u>	<u>\$ 372,390</u>	<u>\$ 385,014</u>

Level 1 investments comprise equities traded daily on an active exchange. Level 2 investments consist of government obligations valued based on trade prices for similar securities. Level 3 investments are certificates of deposit reported at cost, which approximates fair value.

The following table reconciles the beginning and ending fair value of the Plan's Level 3 investments:

	<u>Year Ended</u>		
	30 June 2014	30 June 2013	30 June 2012
Balance, 1 July	\$ 373,000	\$ 372,390	372,105
Purchases/Accrued Interest	444,068	442,824	440,479
Sales/Maturities	(443,552)	(442,214)	(440,194)
Balance, 30 June	<u>\$ 373,516</u>	<u>\$ 373,000</u>	<u>372,390</u>

NOTE 6 - CONCENTRATIONS OF CREDIT RISK

NAWS places its cash and cash equivalents with high quality financial institutions. Cash in US banks is covered by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000 per bank. Cash in Canadian accounts is insured up to \$100,000 (Canadian) per bank. At 30 June 2014, deposits in US institutions exceeded insurance limits by \$825,661 and deposits in Canadian banks exceeded insurance limits by \$147,489. Cash in other foreign accounts is not insured by the FDIC and totaled approximately \$506,000 as of 30 June 2014.

Assets reported in the statement of financial position as of 30 June 2014 include cash of approximately \$365,000 and publication inventory of approximately \$310,000 at Payam Omega. Due to current relations between Iran and the United States, it is unlikely that NAWS could transfer such assets out of Iran; accordingly their use is limited to Iranian operations.

NOTE 7 - EMPLOYMENT CONTRACT

NAWS has entered into an employment agreement with its Executive Director. The agreement provides for compensation and benefits and expires on 31 December 2018. Should the agreement be terminated by NAWS, certain amounts would be payable to the Executive Director as defined in the agreement.

NOTE 8 - SUBSEQUENT EVENTS

Management has evaluated subsequent events through 13 January 2015, the date these financial statements were available to be issued. There were no material subsequent events that require recognition or additional disclosure in these financial statements.

Invest in Our Vision

With each edition of the annual report, we provide a detailed list of the contributions that members, groups, and service committees have sent to us during the fiscal year. We organize the contributions by region for easy reference. Looking at the contribution figures as compared to the total expenses for fellowship services gives us a snapshot view of how far these fellowship contributions go in paying for the services we provide for and on behalf of our worldwide Fellowship.

As most of our members understand, the fact that NA World Services must operate as a business does not change the spiritual nature of our goals as an organization. This is supported by the approval of A Vision for NA Service at WSC 2010. While some organizations respond to the ongoing challenges posed by the global economic climate by cutting the level of services provided, the continued pursuit of our vision means continuing to provide the highest level of services we can.

As the following charts indicate, we have been able to make modest cuts without a serious reduction in the services we provide to the Fellowship. The unfortunate reality is that we are not able to calculate the overall loss the Fellowship sustains when we are unable to provide workshops for a developing NA community or when we are unable to have a presence at a public relations event. In some cases we

are able to rely on local members to step up and fill those roles in our absence, but other times these unattended events simply represent missed opportunities. The coming year will include the rather considerable expenses associated with holding the world convention. The convention is another area where we have considered ways to reduce expenses as much as possible, but the costs of holding an event of this type can only be reduced so much.

The following table shows the total contributions we have received per group in recent years, as compared to the cost per group of services we pro-

Income by Source

vide (i.e., WSC support and fellowship development expenses). These figures are meant to provide an idea of what it would take for our fellowship services to be funded entirely by Fellowship contributions. With the size of the Iranian NA community and the current political situation that makes contributions difficult, we are also offering the figures with Iran removed from the equation .

Annual WSC & Fellowship Development Expenses and Total Weekly Meetings Worldwide

Fiscal Year	2011	2012	2013	2013 w/out Iran	2014	2014 w/out Iran
Number of meetings worldwide (approx.)	58,039	61,888	61,888	43,693	63,000	44,800
Total contributions received from meetings worldwide	\$741,994	\$666,860	\$747,356	\$747,356	\$784,472	\$781,472
Annual contributions received per meeting worldwide	\$12.78	\$10.78	\$12.08	\$17.10	\$12.45	\$17.55
Cost to fund fellowship services (WSC support and fellowship development)	\$3,940,012	\$4,611,670	\$4,269,448	\$4,269,448	\$4,698,545	\$4,698,545
Dollars needed annually per meeting worldwide to cover fellowship services	\$67.89	\$74.52	\$68.99	\$97.71	\$74.58	\$104.88
Percentage of expenses currently covered by fellowship contributions	18.8%	14.5%	17.5%	17.5%	16.7%	16.6%

About half of our Fellowship is concentrated in the US and Canada, but just over 70 percent of our contributions come from NA groups and service bodies in that part of the world. Less than five years ago, the US and Canada were responsible for 85 percent of total contributions. Our heartfelt thanks to the many communities around the world who are helping to change this reality.

As our subsidized literature trends show, many NA communities outside of North America are still in early developmental stages, or exist in places where the economic conditions prevent the possibility of making substantial financial contributions to the global Fellowship anytime in the near future. With that in mind, we also provide figures regarding what it would take for groups in US/Canada to fully fund the services provided directly to the Fellowship by NAWs each year. These figures are noticeably higher than those for the number of groups worldwide, but when broken down to a monthly figure, this would amount to each group in the US and Canada contributing \$164.56 annually, or just under \$14 monthly, to NA World Services. Especially for well-off groups in the US and Canada, this figure does not seem too unattainable. Indeed, in recent years we have seen an uptick in the number of contributions coming directly from NA groups, which is a fund-flow model that is not just supported by the recently updated self-support pamphlets, but is one that has been a part of Fellowship-approved NA literature since the mid-1990s.

Annual WSC & Fellowship Development Expenses and Total US/Canada Meetings

Fiscal Year	2011	2012	2013	2014
Number of groups/meetings in US and Canada (approx.)	27,883	29,097	29,097	28,552
Contributions received from US and Canada	\$601,495	\$581,554	\$531,326	\$664,046
Annual contributions received per US and Canada group/meeting	\$21.57	\$19.99	\$18.27	\$23.26
Cost to fund fellowship services (WSC support and fellowship development)	\$3,940,012	\$4,611,670	\$4,269,448	\$4,698,545
Dollars needed annually per US/Canada group/meeting to cover fellowship services	\$141.31	\$158.55	\$146.78	\$164.56
Percentage of expenses currently covered by US/Canada contributions	15.3%	12.6%	12.4%	\$14.1%

As always, we encourage other service bodies to do what we have done here: calculate the cost of delivering effective services in your area or region and report those numbers to the local NA groups. The figures will be most helpful when broken down into meaningful numbers, such as the amount of contributions needed per group, per month, to keep the local service budget solvent. By providing members information about what it takes to make these services possible, we can help them see how the money they put in the basket is an investment in our vision.

US/Canada Fellowship Support Cost per Meeting

- Actual dollars received per meeting in US & Canada
- Required dollars to cover fellowship services from contributions per meeting
