Inventory of NA world services

Present: Sabine, Bess, Oliver, Ilse, Uli, Heinz, Daniel, André

After the reading of the Twelve Traditions we begin answering the questions for the inventory of world services of NA.

We realize immediately how many of us have to rely upon the experience of present and past representatives of the region when answering these questions. Without those detailed explanations by which individuals relay their knowledge we would arrive a completely different result.

Therefore, we decide to submit this additional feedback.

Question 4: How or what is contained [involved] in this support?

Question 5: What is offered and how much are we using, or are we receiving more than is presently needed? We are using: Printing of the Basic Text, literature shipping (English language), translation services (Newslite [sic, should be Digest]), inquiries to BOT, BOD, WSO, PI & HI resources. What would we like to receive: Do we have what we need?

Question 7: c) What kind of travel reimbursements are in question?

e) Coordination of which services?

f) Not of any use for everybody. In general, we have to be flexible.

Question 8: We request the original, rather than unusable translation.

Question 14: We cannot respond, because we see ourselves rather separately.

We are thankful, to be allowed to contribute our part to this inventory project.
