NA REP MEETS WITH LIBRARIANS, INFORMATION SPECIALISTS

An NA World Service Office staff member attended the November 1995 annual conference of the Substance Abuse Librarians and Information Specialists, an international professional association of alcohol, tobacco, and other drug (ATOD) research librarians and community drug resource center staff. We attended to learn more about how ATOD information is disseminated within the research community and among local addiction-related resource agencies, and to make Narcotics Anonymous more accessible to these key workers. The wide-ranging program at SALIS'95 was very helpful to our staff, and we look forward to participating in the next SALIS conference this November in Vancouver.
