

## AM I AN ADDICT?

This question can only be answered by yourself. If you are an addict, before any progress can be made toward recovery, you must first admit and accept the fact that you have a problem with drugs.

This is not an easy thing for many of us to do. All through our usage, we told ourselves "I can handle it". This was true at the beginning, but it is not so now. The drugs handle us. Remember alcohol and marijuana are drugs.

The following is a list of questions written by a cross section of addicts in the worldwide fellowship of Narcotics Anonymous.

Addiction is a disease that ends in jails, institutions and death. Many of us came to Narcotics Anonymous because drugs had stopped doing what we needed them to do. Addiction takes our pride, self-esteem, family, loved ones and even our desire to live. If you have not reached this point in your addiction, you don't have to. We found that our own private hell is within us.
