

## NARCOTICS ANONYMOUS

## FOR THE NEWCOMER

This Program offers hope. All you have to bring with you is the desire to stop using and the willingness to try this new way of life.

Come to meetings, listen with an open mind, ask questions, get phone numbers and use them. Stay clean just for today.

May we also remind you that this is an ANONYMOUS program and your anonymity will be held in the strictest of confidence. "We are not interested in what or how much you used or who your connections were, what you have done in the past, how much or how little you have, but only in what you want to do about your problem and how we can help."

telephone numbers

the case with all the other members of the family. The wife, who had been a widow for many years, was now the sole support of her husband, and she had to work hard to earn enough money to keep them both in decent surroundings. She worked as a maid in a large house, and her husband was a carpenter. They lived in a small, one-room apartment, and they had to make do with very little. They had no car, and they had to walk or take public transportation to get around. They had to pay rent, buy groceries, pay for utilities, and pay for their children's education. They had to live on a tight budget, and they had to sacrifice a lot to make ends meet. They had to work long hours, and they had to give up a lot of their free time. They had to deal with a lot of stress and pressure, and they had to constantly worry about where their next meal was coming from. They had to work hard to provide for their family, and they had to constantly work to make sure that their family was taken care of. They had to work hard to provide for their family, and they had to constantly work to make sure that their family was taken care of.

W. H. D. - I am sending you a copy of the  
newspaper from which I have cut out a  
few lines of the article on the  
originality of Lincoln's Gettysburg Address.  
I hope you will find it of interest.  
Yours very truly, W. H. D.

success is not known for certain because it is  
not clear whether or not the species is still present.  
The species is described as follows:  
A gregarious arachnid 20-30 mm long,  
the body not exceeding 5 mm wide.  
The body is dark brown, with irregular  
brownish-yellow markings on the sides.  
The legs are long and slender, ending in sharp  
claws. The abdomen is rounded and hairy.  
The species is found in the central and southern  
parts of the country, particularly in the  
mountainous regions.
