Re: *It Works* Approval Form

I want to communicate with you directly about the availability of the approval form of *It Works: How and Why*. This book-length draft was sent to regional literature committees and conference participants during the first week of December. As with all review and approval material for the past few years, financial constraints prevent us from mailing this draft to you directly.

You may want to order the approval form of this book through the World Service Office. The item number is #1150 and the cost per copy is \$8.80 plus shipping and handling.

We value your taking the time to read *It Works* and to let your region know whether you would recommend that the book be approved at the 1993 World Service Conference.
